

Mitchell A. Kline, MD, FAAD, a Dermatologist with Kline Dermatology

Get to know Dermatologist Dr. Mitchell A. Kline, who serves patients in New York, New York.

New York, New York City, Aug 10, 2021 ([Issuewire.com](https://www.Issuewire.com)) - Dr. Kline is the principal clinician and board-certified dermatologist at Kline Dermatology, where he specializes in melanoma research, diagnosis, and treatment as well as state-of-the-art aesthetic procedures.

One of New York's leading dermatology practices, Kline Dermatology specializes in cutting-edge

medical and cosmetic treatments. It is committed to offering patients exceptional care led by a team of hands-on professionals with the highest level of accreditation. They are dedicated to being at the forefront of new dermatological research and innovation so that they can offer patients the best care. They invest in top-performing products, breakthrough diagnostic technology, and innovative techniques that are results-driven and supported by science.

Back in 1989, Dr. Kline graduated with his medical degree from the Perelman School of Medicine at the University of Pennsylvania. He participated in research at the Children's Hospital of Philadelphia in pediatric neurosurgery and neurophysiology, receiving a Young Investigator Award from the National Institutes of Health. He then completed his training in dermatology at Cornell, Rockefeller University, and Memorial Sloan-Kettering, and served as Chief Resident in Dermatology at Memorial Sloan-Kettering/Cornell University from 1989-1990.

On the Clinical Board of The Melanoma Research Alliance, he was the honoree for The Melanoma Research Foundation. His strong education and unique set of skills that combine the fields of dermatology, Mohs surgery, dermatologic surgery, laser medicine, and surgery allow him to provide his patients with the most desirable results.

As for his academic appointment, Dr. Kline serves as a Clinical Assistant Professor at the Weill Cornell Medical College.

A Fellow of the American Academy of Dermatology (FAAD), he is board certified in dermatology by the American Board of Dermatology (ABD). The ABD is a voluntary, non-profit, private autonomous organization formed for the primary purpose of protecting the public interest by establishing and maintaining high standards of training, education, and qualifications of physicians rendering care in dermatology.

After years of research and development, he and Dr. Jeremy Green, widely recognized as two of the most admired and trusted dermatologists in the world, introduced the exclusive, patented Drs. Kline + Green™ product line, featuring one of the most advanced scientific formulations one can buy today without a prescription. All products are manufactured in a state-of-the-art, certified facility using only the highest quality ingredients and offer clinically proven results with the remarkable benefits of advanced nail care in the convenience of one's own home.

Dr. Kline holds his medical licenses in NY, PA, FL, TX, and CA to facilitate patient communication by teledermatology. He utilizes the most medically advanced techniques to treat both adult and pediatric patients.

Dermatology is the branch of medicine dealing with the skin. The skin is the largest organ of the body. Dermatology is a specialty with both medical and surgical aspects. A dermatologist is a specialist who manages skin diseases and addresses both internal and external causes, including cosmetic concerns, involving the skin. Dermatological duties include providing consultations and screening tests, as well as undertaking non-invasive surgical procedures.

As a leader and expert in the field of dermatology, Dr. Kline worked to establish global healthcare clinics in nine countries through what was originally known as "Doctors of the World" for the care of underserved populations. He also participated in the development of the Global Network for the non-invasive diagnosis of melanoma.

His work and research have been the subject of stories on CBS, ABC, and NBC, including an edition of

“Extra: Game Changers.” He has been featured in The Wall Street Journal, The New Yorker, and on the HBO documentary “Cancer: Urgency to Emergency.” He has been on the speaker’s bureau for Janssen Pharmaceuticals for onychomycosis treatments. He has also published over ten articles, holds 23 organizational memberships, generated five research and concept proposals, and participated in over 14 grand rounds presentations.

Now, he places his focus on developing radio-frequency, micro-needling with stem cells for anti-aging, non-invasive melanoma diagnosis, confocal microscopy, and novel wart therapies with the HPV vaccine and PDT.

In honor of his outstanding achievements, he was awarded the MRF Humanitarian Award in 2014.

Happily married, Dr. Kline and his wife raised three successful adult children in New York City. He is an advocate for the underserved, an avid traveler, hiker, and skier. He speaks both English and French.
