 **PAINTABLE**

Arizona, Phoenix, Aug 11, 2021 (Issuewire.com) - So far the challenge has been attended by 51 000 artists from all corners of the world with overwhelmingly positive feedback from attendees.

„The challenge is our way of giving back to the artistic community,” says David Belliveau, the co-founder

of Paintable and lead instructor at the Academy.

And this is not just a challenge- all who participate get access to a masterclass that teaches the complete process of painting a digital portrait, from sketch to a polished masterpiece.”

The challenge is open to all artists, from beginners to skilled professionals. All that is needed to participate is a tablet and the love of painting.

Supported by XP-Pen, Wacom, and Huion the prize pool for this year's challenge is remarkable, a total of 9 digital tablets are to be given as prizes and the winners are chosen randomly after the challenge comes to its end after 5 days, making it a really all-inclusive art event.

The challenge begins on August 16th and all who wish to sign up or find out more about the challenge can do so at Paintable's website <https://paintable.cc> or directly at <https://paintable.cc/owp-challenge-registration>. Preview video of the course can be found here <https://youtu.be/gq0tlf-KB3g>
