

QuillBot Introduces a Citation Generator to Complement Its Comprehensive Artificial Intelligence Writing Platform

QuillBot's APA, MLA, and Chicago Style Citation Generator streamlines students', scholars', and publishers' workflows by automatically creating Works Cited and Reference List pages.

Illinois, Chicago, Aug 12, 2021 ([Issuewire.com](https://www.issuewire.com)) - [QuillBot®](#), the AI writing platform used by more than 30 million people worldwide, has enhanced its platform with the addition of a [Citation Generator](#) tool. The newly added Citation Generator enables a broad range of writers and researchers to create and edit citations in the APA, MLA, and Chicago styles. With plagiarism rates increasing by 10% since

the pandemic began, according to a recent Copyleaks study, this automated citation tool is timely.

QuillBot's Citation Generator enables students, educators, researchers, scientists, and a variety of other professional users to demonstrate the breadth and scope of their research and to appropriately credit authors. There are numerous citation styles and formats appropriate for writing in various disciplines. However, the most commonly used formats are APA, MLA, and Chicago, all of which are supported by QuillBot's Citation Generator for reference types such as books, websites, and academic journals.

The Citation Generator in QuillBot features an intuitive, streamlined interface that enables users to quickly create and edit citations in APA, MLA, and Chicago styles. Both in-text and full citations are generated and labeled automatically, with simple export options for Microsoft Word. After entering all of the required information, QuillBot's Citation Generator automatically generates accurate citations for the corresponding Reference, Works Cited, or Bibliography pages, saving users time and energy while also properly crediting the original source texts.

To view QuillBot's Citation Generator and to automatically generate accurate citations for all information gathered from external sources during the research process, visit <https://quillbot.com/citation-generator>.

Instead of focusing on one particular area of issue for writers, QuillBot focuses to be a comprehensive platform that is made up of several tools such as [Summary](#), [Paraphrasing](#), and [Grammar Checker tool](#), designed to elevate and strengthen users' writing.
