

R223 Expects to Be the Best Real estate Investment of Latin America

R223 is the first-ever initiative of real estate investment on the cryptocurrency network that launches in the most exciting way.

Mexico, Baja California, Aug 6, 2021 ([IssueWire.com](https://www.issuewire.com)) - The highly anticipated blockchain startup currently in the Pre-ICO phase is set to deliver a groundbreaking agenda as it launches the first cryptocurrency backed by [Mexican Real Estate](#) and managed by a formal and established investment group.

R223 is in the process of revolutionizing the real estate industry. The company is equipped with a team of international industry experts with proven ability to create long-term businesses and generate revenue. The R223 was designed with the goal of creating an advanced economic infrastructure based on the best blockchain network in the market, the Ethereum Blockchain - offering solutions for the real estate for recovery, restoration, and profit generation in Mexico, Latin America, and the world over.

[R223](#) is an ERC-20 token on the Ethereum platform. These tokens are essentially smart contracts that use a high-security standard interface that runs on the Ethereum Blockchain.

Since its inception, R223 has witnessed exponential worldwide interest from investors and cryptocurrency experts around the globe. The dedication of the R223 team and advisors is reflected in how successful the company has grown; achieving each milestone as it goes.

"Thanks to the R223 Cryptocurrency we will accelerate, recover and restore our real estate projects, allowing investment from all over the world and providing all kinds of benefits to holders." -Oscar Barbadillo Mier / Founder R223

"We have created the best cryptocurrency in Latin America and the best in the world, thanks to the combination of the real estate market and the power of technology, cryptocurrencies, and finance." -Gonzalo Araújo / Founder R223

The R223 Coin is currently in ethereum, investors can see how many, how much, and more in the etherscan browser: <https://etherscan.io/token/0x428be91cb9a9093dfec1db9e85a6a04ac11dae5e>

The founding partners of R223 own solid assets, such as land, mining projects, hotels, among others. Also, their founding partners are proud to announce that their most iconic asset in Mexico City is already in operation and generating revenue.

Unlike other cryptocurrencies where individuals need an investment round to acquire assets or start a project, the R223 is different. The uniqueness and main value added of [R223](#) is that it was born with the ownership and rights of use of a large number of lands, properties, and other assets.

An extra value-added is its immediate usability. If the coin investor wants to participate as shareholders in their Real Estate projects, they are provided with the possibility to purchase stocks with R223.
