

Robin H. Fogle, MD, a Reproductive Endocrinologist & Infertility Specialist with Atlanta Center for Reproductive Medicine

Get to know Reproductive Endocrinologist & Infertility Specialist Dr. Robin H. Fogle, who serves patients in Georgia.

New York, New York City, Aug 25, 2021 ([Issuewire.com](https://www.issuewire.com)) - Dr. Fogle is a reproductive endocrinologist & infertility specialist who joined the Atlanta Center for Reproductive Medicine in the fall of 2007.

Her clinical interests include in vitro fertilization, polycystic ovarian syndrome, premature ovarian failure, and reproductive surgery. Her research interests center around uterine receptivity and the window of embryo implantation.

A native of Texas, Dr. Fogle earned her undergraduate degree in Biomedical Engineering, Summa Cum Laude, from Tulane University in New Orleans, Louisiana. She then received her medical degree from Vanderbilt University School of Medicine in Nashville, Tennessee, where she was awarded the prestigious Janet Glasgow citation for academic distinction.

Furthering her training, she pursued her residency at Emory University School of Medicine in the Department of Obstetrics and Gynecology in Atlanta, Georgia, where her faculty and peers elected her to serve as chief resident from 1999-2000. From there, she went on to complete her fellowship training in Reproductive Endocrinology and Infertility at the University of Southern California Keck School of Medicine, Los Angeles, California, under the instruction of Richard J. Paulson, MD.

Delivering advanced care with a personal touch, she is board-certified in obstetrics and gynecology & reproductive endocrinology and infertility by the American Board of Obstetrics and Gynecology (ABOG). The mission of the ABOG is to define specialty standards, certify obstetricians and gynecologists, and facilitate continuous learning to advance knowledge, practice, and professionalism in women's health.

Having previously served on the executive board for the Georgia Obstetrics and Gynecology Society, Dr. Fogle is an active member of the Alpha Omega Alpha Honor Medical Society and the American Society for Reproductive Medicine.

In the state of Georgia, she is affiliated with Northside Hospital Atlanta and Northside Hospital Forsyth.

Reproductive endocrinology and infertility (REI) is a surgical subspecialty of obstetrics and gynecology that trains physicians in reproductive medicine addressing hormonal functioning as it pertains to reproduction, as well as the issue of infertility. While most REI specialists primarily focus on the treatment of infertility, reproductive endocrinologists are trained to also evaluate and treat hormonal dysfunctions in females and males outside after the reproductive years.

Recently named an Atlanta Top Doctor in the field of reproductive endocrinology, Dr. Fogle has received several awards for her research as a fertility specialist, including the Menopause Research Award and Val Davajan Fellow Award from the Pacific Coast Reproductive Society. Additionally, she has authored several peer-reviewed manuscripts in the field of reproductive endocrinology and infertility.

Outside of medicine, her interests include spending time with her family, jogging, and ballet. She is married to Evander F. Fogle, MD, an orthopedic surgeon with Resurgens Orthopaedics, in Atlanta. They have three sons.
