## Covid Vaccine a Miraculous Accomplishment

**Covid became one of the top 3 killers in the US. And the only one contagious but with a vaccine making it less lethal. It is an amazing accomplishment if not a miracle that the medical sciences by God became (fruitful and multiplied).**

Heart disease  
Cancer  
COVID-19  
Stroke  
Lary Disease  
Alzheimer's  
Diabetes  
Influenza/Pneumonia  
Sepsis

**Texas, Dallas, Aug 17, 2021 ([IssueWire.com](http://IssueWire.com))** - As the Faith community is tossed all over concerning Covid and the vaccines there's a voice among many in the faith community thankful for the accomplishment and views it as a miracle of Biblical proportion. Dr Steven DavidSon, the nation's Leading Christ-based Counselor and Pastoral leader of Amazing Things The Church, a Virtual Church reaching nearly two million a month are resolute about his view.

"I'm first to admit, I did not think that Covid would be so devastating. But it's understandable considering the divided condition of the nation. Thereafter, I was as skeptical and concerned as anyone else about any vaccine created under such circumstances. However, while I am led by the principles in my faith, I am also data-driven and pragmatic. My Christ-based Theology views the medical sciences as operating under the absolute authority of God almighty. Once the evidence became so overwhelming with extremely low statistical out-liars, I became more amazed than any other response."

DavidSon views the faith community confusion as the product of a much larger issue. "All that's involved with the Church right now is not a simple matter. There are very serious problems now in the faith community, particularly the Christian Faith. There are numerous political, racial and cultural factors that have led to the hesitancy and confusion with the vaccines. But the condition that concerns me most (with influence on every issue) is there's so much information coming from so many sources with all kinds of motives. Obviously, I'm Global in my concerns, but my principal focus concerning appropriate information is persons who claim Christ-Jesus as personal Savior.

The whole nation just learned that listening and following the most powerful 'Christian' voice in the nation (white-evangelicals) across denominational lines can lead to the road of insurrection, personality worship, and nationalism. Also, the lack of standardized structure, licensure, and required ministry and professional development has also contributed to a dangerous level of ignorance and insolence across racial and cultural lines. When you consider the availability of access to social media platforms, the enormity of the problem is tantamount to disinformation apocalypse...."

DavidSon has concluded that through it all, the vaccines have held up against overwhelming odds, making their success a remarkable feat if not a miraculous one.

"I say miracle! No question. We're talking a killer only behind Heart Disease and Cancer in 2020. But unlike Heart Disease and Cancer, Covid is contagious! It was a newly discovered illness. The medical community accepted the challenge and within a year vaccines were being distributed. Thereafter millions have shown the efficacy of these first-generation Covid vaccines to the degree those refusing it are sadly bearing the brunt of the sickness today. Speed, life-giving, illness-prevention, speedy recovery, these are not the makings of demons and Satan as some would suggest. It is an extraordinary example of the One who said: 'Be fruitful and multiply.' And to those who say, 'what about the long-term effect?' ' Long-term effect is not healthy risk management in the present situation. If you contract a lethal illness today, there may not be any long-term to consider. Unless there is a significant medical conflict or with your physicians' approval, take the vaccine." Dr. DavidSon just concluded a three-part series on Faith and Medicine a Christ-based Theology. It can be viewed on the Amazing Things The Church, Facebook page.

About: Davidson's a pioneer in web-based ministry since 1997 leading the Christ-based Ministry enterprise of 18 Web Sites, featuring non-apostate (non-Political) Christ-based Counseling and Education sites. He's been in Christian Ministry more than five decades and this is the twenty-ninth year of the Amazing Things The Church Ministry, the heart of the Christ-based enterprise with an average of thirty-five thousand a day attending virtually. There's a live daily programming and numerous support resources available to the public:
