

7T's Development Partnership With SharpRank Mobile App Elevates Sports Betting

Developed by 7T, SharpRank Mobile App Elevates Sports Betting By Providing Unparalleled Ratings and Credible Insights for Sports Fans

Texas, Dallas, Sep 10, 2021 ([Issuewire.com](https://www.issuewire.com)) - Cutting-edge Dallas software and mobile development company [7T, Inc.](https://www.7tinc.com) has partnered with SharpRank Inc., to develop and release the SharpRank mobile app to the app stores, where sports fans are now leveraging SharpRank's proprietary algorithm to gain credible insights, rating data, and key metrics as they prepare for football

season.

“SharpRank is a true game-changer in sports betting for professionals and casual users alike, providing ranking data, analysis, and other metrics in a user-friendly interface. The app offers insights they just can't find anywhere else as they strive to improve their results,” explained 7T President & COO Shane Long of the cross-sport performance ranking app. He added, “This partnership provided an outstanding opportunity to apply advanced technologies such as data analytics, automated testing, and an innovative mobile design to the growing and exciting sports betting market. This collaboration was a lot of fun for the 7T team too.”

The SharpRank's proprietary algorithm ranks and comprehensively evaluate sports picks, based upon past performance from sports personalities — also known as “Sharps” — experts, algorithms, and the general public. Past successes, combined with the aggregated picks for upcoming sporting events, have made SharpRank the industry standard as its first and only rating agency. This innovative mobile app provides verified, easily digestible insights into Sharp's strengths and tracks their record over time, while also offering leaderboards and comparisons of different high-profile personalities within the industry.

Available for iOS and Android mobile devices, users can log their own picks, track their own progress, compete with and follow Sharps and/or friends, build their brand and measure their sports betting capabilities against Sharps within the app interface. SharpRank supports a variety of different sports, including the NFL, MLB, CFB, NBA, NHL, with expansion into new markets — including CBB, Horse Racing, NASCAR, Golf, and European Soccer — coming soon.

“SharpRank is the sports betting equivalent of Morningstar for investors or U.S. News & World Report for higher education; that is to say, a go-to source for the ratings, verified analytics and credible data that are essential for fans to make an informed decision,” explained SharpRank's CEO Christopher Adams. He added, “SharpRank's equivalent exists in every other market, proving that the transparency and market validation we provide is not just desired, it is necessary for the market to evolve.”

“SharpRank chose 7T due to their willingness to take on a fast-turn, multifaceted project and their ability to be a thought partner with innovative solutions — not just a creative vendor. Along with 7T's vision alignment, the added benefit of their constant exposure to the Texas sports culture made this collaboration an easy decision,” said SharpRank's COO and Dallas native Josh Cortez.

SharpRank has formed strategic partnerships with a variety of sports industry leaders, including Maven/Sports Illustrated, Betway, BetMGM, FUBO, TIPICO, Rush Street Interactive, EDJ Sports, and a few other undisclosed major industry outlets.

The SharpRank mobile app is available in the [Apple App Store](#) and in the [Google Play Store](#).
