

# Anyone Can be a Cybersecurity Expert

Build and Measure Requests for Donors

**Texas, Dallas, Sep 24, 2021 ([Issuewire.com](https://www.issuewire.com))** - Every team member has a role in protecting a company's sensitive data -- but only a rare few are cybersecurity experts. Dr. Rachel Levitch has created a new framework, particularly for nonprofits to guide teams through gap resolution and maintaining compliance between assessments when assessors are not there. "The problem within the [cyber-security industry](#) as we are constantly running toward the next disaster. My specialty is helping clients reach their technical optimum by creating infrastructures that measure outcomes and industry

compliances. Most of all anyone to be a cybersecurity expert.” Moreover, as Partner and Senior Executive, [Dr. Levitch's](#) goal in production is to make compliance and security easy for nonprofits. And as a security firm and contributor, Charles Edda and Charles Bouley have developed new components that offer three structures: 1) evidence review, 2) simple sampling and 3) custom objectives. [Cyber Secure](#) works with [PCI DSS](#), HIPAA, NIST CSF, HITRUST, FedRAMP, SOC 2, all comprised to collaborate with your team, integrate with other software AWS compliance [scanning tools & reporting](#). If you'd like an assessment or to speak with Dr. Levitch [contact](#) her today.
