

Asia's Best Cochlear implant surgeon | Best Cochlear Implant Surgeon in India | Dr Sanjeev Mohanty

Best Cochlear implant surgeon in Asia | Best Cochlear Implant Surgeon in India | Ent Surgeon in Chennai

Successful | Dr. Sanjeev Mohanty

As elucidated by him, bilateral simultaneous cochlear implantation of kids at an early age is a demonstrated method to enhance the development of speech and hearing resulting in an increase of self-esteem and self-confidence to be integrated into society.

After a detailed examination of the toddler, cochlear implant surgery was advised. After the parents nod, we successfully implanted the hearing device, code-named, Cochlear profile 632 perimodiolar slim series with wireless (off the ear) Kanso with speech processors to be simultaneously used in both ears of the young kid.

It's another matter that his core interests in Head & Neck Surgery, Endoscopic rhinology, Phonosurgery, and Implantation Otology have brought about an enviable change in the concepts of surgical practice amongst his peers and well-wishers. His innovations in surgical practice have resulted in good clinical outcomes for suffering patients. His surgical feats are widely discussed and acknowledged by the print media including the recent surgical milestones of bilateral cochlear implantation across the spectrum of profound hearing loss.

He is one of the leading ENT, Head & Neck surgeons of India and the purposeful intent in the profession has helped many international patients too, who have benefited from his rich repertoire of surgical skill set.
