

‘Come Come Down’ by Karma's Tea Brings Together Catchy Jazz Strings with Pop Melodies to Stun

Popular band Karma's Tea project their unique vision and artistry with their latest soundtrack ‘Come Come Down’ which perfectly outlines their musical values.

New York City, Sep 18, 2021 ([Issuewire.com](https://www.issuewire.com)) - Looking back over the numerous jazz albums that

have crossed the desk in 2021, it's clear that not many artists have succeeded in creating timeless sounds. Created by Mike Desroches who is on the keyboards and singer/ songwriter Mystina, [Karma's Tea](#) is a popular pop/ jazz band that fuses exotic contemporary jazz sounds with a sultry touch of R&B and readily engulfs the listener attention with their unique arrangements. Setting an amazing standard in terms of musical elements and creative crafting, both the artists have tried and tested their unique personalities and have come forward to collaborate and create perfectly pleasant compositions. Ready to stun the audience with their fresh and original sonic elements, the band remains rooted in tradition but breaks away from the standard material to freely inject modern sounds to stand out.

'Come Come Down' is the latest record piece from their end that is easily accessible to both the causal jazz and pop fans while pleasing music lovers with its eccentric concept. Be it instrumentally or vocally, the band has showcased the potential to be considered as a grandiose name in the industry. The soft, silky, and inherently smooth vocals of Mystina sound perfectly balanced as she intricately sings to the custom jazz and pop blended instruments to create a dream-like ambiance. The confidence in the singer's vocals sets up the mood as the accompanying beats, intriguing sounds of the drums, and jazz instruments trigger various emotions.

While Mike has fronted Chick Corea Fusion Band in New York, Mystina is a veteran singer who breathes rhythm and blues and has also performed for Michael Jackson at Webster Hall in 2002. Both the artist amalgamates their freshness and realness to create a magical spin of melody and **'Come Come Down'** best reflects their honest intentions. **Karma's Tea** is riding high on popularity for its enchanting musicality and is now available on [Spotify](#), [Youtube](#), [Instagram](#), [Twitter](#), and [Facebook](#). Follow them for more details on their future projects.
