

Design your custom shoes online

Pink Bird is the first Indian brand offering 3D interactive design tool that allows customers to customize their shoes online. We are providing handmade custom sneakers in very cheap prices.

Haryana, Gurgaon, Sep 13, 2021 ([Issuewire.com](https://www.issuewire.com)) - Pink Bird is the first Indian brand offering a 3D interactive design tool that allows customers to customize their shoes online. We are providing handmade custom sneakers at very cheap prices.

The founder Vibhooti Kishor, having Management and AI skills (MBA and AI and ML from IIT Guwahati, India) believes in transforming every idea into design leather shoes with cost-effective and without losing luxuriousness. Every people has a different style/fashion. So readymade shoes can't be his/her style or fashion. Till now in the fashion industries, only the clothing sector has tailor-made services. So we are decided to bring this online facility to the shoe sector. Because it plays a vital role in dress-up. And they believe that it will be a demanding product in India.

Pink Bird shoe customization application is very easy to use. In less than 5 minutes you can customize your shoes online by using mobile or Laptop/Desktop.

They are using the high-quality rubber sole, Upper and lining made with genuine leather and has a very comfortable footbed. Which gives luxuriousness during walking. And they have already many colors in leather and laces for custom sneakers.

They are also open to investors. If anyone is interested in the shoe sector and believes in style/fashion,

they can be a part of their organization. You can check their website from here.
