

## GearTOP Releases the Rider Hood Balaclava: Enjoy Warmth and Comfort for the coming Winter Season

**GearTOP™**  
Sun & Wind Protection

available at  
**amazon**

**Ontario, Toronto, Sep 22, 2021** ([Issuewire.com](http://Issuewire.com)) - [GearTOP](#), one of the leading providers of premium yet affordable sun and wind protection gear is expanding its repertoire, yet again! Perfect for the coming winter holiday, stay warm, safe, protected - and so much more.

The GearTOP Rider Balaclava is more than just your run-of-the-mill headwear. With an elevated

construction, this multi-purpose full-face headwear features a hidden pocket and a drawstring bag to bring all your needs with you for any adventure.

The hidden pocket can store valuables like cash and cards as the wearer keeps busy. The drawstring bag, on the other hand, can hold winter gear and accessories and store your essentials such as the helmet, goggles, and other essentials. Perfect for keeping hands free when heading off to the slopes!

Versatile and multi-functional, this product is wearable in many ways. The GearTOP Rider balaclava has a cozy fleece hood that can be worn over the helmet, it can also be worn as a helmet liner, a closed or open face mask, a skull cap, and a neck gaiter.

Designed for maximum warmth and comfort, the Rider balaclava has a two-layer face mask designed to prevent condensation build-up.

The company says it's perfect for cold season activities such as skiing, snowboarding, and sledding.

"We are passionate about creating products that balance function with style," said GearTOP co-founder Patricia. "Being a snowboarder myself, I saw a need for the way we can easily carry our belongings, while not losing everything along the way. Our balaclava will fit both under and over your helmet, and with the drawstring bag, keep everything always together and in one place as you move to and from the mountains - not just for skiing or boarding, this mask will work great when biking, hiking, running, and so much more!"

The Rider Hood balaclava is available for \$19.99 per unit plus shipping costs and taxes where applicable at [geartopdesign.com](http://geartopdesign.com). They are also available on [Amazon.com](http://Amazon.com) and [Amazon.ca](http://Amazon.ca).

## About GearTOP

GearTOP specializes in designing high-quality yet affordable sun and wind protection gear. They design products with functionality in mind, making them as versatile as possible to suit the needs of outdoor adventurers. Founded by a Father & Daughter duo, Greg and Patricia Kowalczyk in 2014, GearTOP is a private company based in Ontario, Canada.
