

Gregory A. Cumberbatch, MD, FAANS, a Neurosurgeon with Wellstar Neurosurgery

Get to know Neurosurgeon Dr. Gregory A. Cumberbatch, who serves patients in Atlanta, Georgia.

New York, New York City, Sep 22, 2021 ([Issuewire.com](https://www.issuewire.com)) - Distinguished as an exceptional neurosurgeon, Dr. Cumberbatch works with patients at Wellstar Neurosurgery. He is a neuro trauma specialist focusing on advanced complex brain and spine injuries, primary and metastatic brain tumors, spinal column tumors, and degenerative disease of the spine.

At Wellstar, the top medical experts use cutting-edge technology and research combined with compassionate care to deliver world-class medicine to every patient, every time. From primary care, diagnostic services, and specialty medicine to surgery and recovery, patients can expect a personalized treatment plan that is tailored to fit their needs.

Having been with Wellstar since 2012, he is also affiliated with Wellstar Atlanta Medical Center and Wellstar North Fulton Hospital.

Before embarking on his professional journey, Dr. Cumberbatch received his undergraduate degree from the University of Florida in Gainesville. He then earned his medical degree from the University of Florida College of Medicine and completed his residencies in general surgery and neurosurgery at Georgetown University Hospital in Washington, D.C.

Following his training, the doctor attained board certification through the American Board of Neurological Surgery, whose broad aim is to encourage the study, improve the practice, elevate the standards, and advance the science of neurological surgery and thereby serve the cause of public health.

Currently a Fellow of the American Association of Neurological Surgeons (FAANS), Dr. Cumberbatch is also a member of the Congress of Neurological Surgeons, the AANS/CNS Section on Disorders of the Spine and Peripheral Nerves, and the Southern Neurosurgery Society.

Neurosurgery is the medical specialty concerned with the prevention, diagnosis, surgical treatment, and rehabilitation of disorders that affect any portion of the nervous system including the brain, spinal cord, peripheral nerves, and extra-cranial cerebrovascular system. Neurosurgeons are doctors who diagnose and treat problems with the nervous system, often by performing surgery on the brain or spine. They treat strokes, tumors, certain types of birth defects, infections, and head or spinal cord injuries.
