

How Envitect is Changing the Game with Their Aluminium Composite Panel Lineup

Gujarat, Morbi, Sep 11, 2021 ([Issuewire.com](https://www.issuewire.com)) - Based in Morbi, Gujarat, Envitect is a renowned [Aluminium Composite Panel manufacturer](#) in India. As their name is derived from “protect the environment.” they are committed to manufacturing sustainable, durable, and innovative [ACP panels](#). Since their inception, they have served more than 10000 clients across India and successfully introduced more than 100 products.

Within a span of 4 years in the industry, they have successfully established markets across India. Currently, they are operational in Gujarat, Maharashtra, Rajasthan, MP, Chhattisgarh, Karnataka, and Andhra Pradesh. Further, they envision expanding their supply chain not only across pan India but to a global scale by the year 2022. They have already started exporting many of their product outside India nearing their goal. This global expansion ensures the sheer quality with intent commitment.

Envitect is offering a wide range of different [ACP Sheets](#) with varying finishes and textures. Envitect’s Wooden Finish, Solid Finish, Metallic Finish, Marble Finish, Sparkle Finish, and Brush Finish ACP panels offer a great deal of artistry and scenic appeal that spellbound the viewers. Moreover, the Envitect ACP sheet price is cost-efficient, which makes it one of the affordable construction cladding materials.

Envitect’s manufacturing units are equipped with gilt-edged technology to build the Aluminium Composite Panels with acute precision. Envitect’s highly skilled professionals team ensures their quality

products are delivered on time. At present, they have ramped up the capacity to produce ACP panels from 5 lac sq feet to 7 lac sq feet all during this covid Pandemic.

Envitect has done a commendable job of handling the COVID situation effectively. They have supported their staff throughout the Pandemic, helping them get vaccinated, and installed sanitization equipment as well. Further, they have played their part in improving the economic situation by hiring new and talented staff, hiking wages, providing accommodation, and opening up a new canteen. The company has given IT internet enable gadgets to their sales team to attend and arrange online meetings with customers. All these benefit the company employees to reduce outside exposure and lower the chances of contracting COVID.

The team behind Envitect aims to deliver out-of-the-world quality products for clients to get absolute value. And properties of ACP panels such as heat and sound insulation, low maintenance, durability, great aesthetic value, extreme flat surfaces, etc. aid Envitect to achieve their aim.

Envitect ACP sheets are water resistance, moisture resistance, lightweight, anti-termite, corrosion resistance, and weatherproof too. All these make Envitect Aluminium Composite Panels best suited for exterior & interior surface cladding, facades, kitchen cabinets, furniture, false ceiling, bathroom interiors, parapet/roof edges, and many other places.

Envitect is an [ACP sheet manufacturer](#) who puts more emphasis on the quality of the raw material and validates it by performing numerous tests. Further, they take extra care to ensure there are no traces of oil, dirt, silicone, or other contaminants that could weaken the ACP sheets. The ACP panel's material is resilient to pollution and chemical attacks and can endure extreme temperatures, making the service life of ACP panels exceed up to 20 or more years.

“We promise to provide the ACP sheets that will glam up your building surfaces and enhance the look of your building interiors and exteriors while protecting the environment.” said the founding team.

There are numerous ACP sheet manufacturers available in India, but what makes Envitect different from the rest is their Environment-friendly movement, which inspires clients and other manufacturers to adopt their culture. In addition, their professionalism and work ethics makes them stand out in the market and deliver quality products with 100% customer satisfaction.
