

J. Michael Bennett, DC, FSBT, a Chiropractor with Marianna Health & Wellness P.A.

Get to know Chiropractor Dr. J. Michael Bennett, who serves patients in Marianna, Florida.

New York, New York City, Sep 30, 2021 (IssueWire.com) - A practiced chiropractor, Dr. Bennett has a passion for helping people become healthier and more fully functioning through chiropractic care at Marianna Health & Wellness P.A. in Marianna, Florida.

As an injured Iraq war veteran, he fully sympathizes with those suffering from pain. It is his goal to not only offer relief from pain but also to educate his patients about healthy lifestyle choices that promote vitality.

Serving Jackson County and the surrounding areas for 36 years, the leading health professionals at Marianna Health & Wellness P.A. are dedicated to helping patients achieve their wellness objectives -- combining skill and expertise that spans the entire chiropractic wellness spectrum. Dr. Daniel Bontrager and Dr. Michael Bennett are committed to bringing patients better health and a better way of life by teaching and practicing the true principles of wellness care.

With a broad educational background, Dr. Bennett graduated with his Bachelor of Science degree from Excelsior College and earned his Doctor of Chiropractic degree from Life University in 2004. Over time, he earned advanced certification in MRI spine interpretation, head trauma & concussions, and auto crash dynamics from the State University of New York. He currently strives to complete a fellowship in spinal biomechanics and trauma.

Licensed by the Florida State Board in 2009, he is an active member of the International Chiropractic Association, the Florida Chiropractic Association, the Academy of Chiropractic, and the National Spine Management Group.

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain, back pain, headaches, vertigo, and a long list of other ailments and conditions. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself naturally, without the use of medication or surgery.
