

Kathleen Ciarla, RN, a Registered Nurse with Hudson Hills Senior Living

Get to know Registered Nurse, Kathleen Ciarla, who serves patients in North Bergen, New Jersey.

New York, New York City, Sep 8, 2021 ([Issuewire.com](https://www.issuewire.com)) - Kathleen is a registered nurse specializing in long-term care and geriatrics. She currently serves as the Director of Nursing at Hudson Hills Senior Living in North Bergen, New Jersey.

Hudson Hills Senior Living is a full-service senior living facility offering independent living, assisted living, and long-term care. It takes away the worries of everyday chores, allowing residents to relax and enjoy all the comforts of home.

The mission of Hudson Hills Senior Living is to “Consistently provide the highest quality of life to our residents as they age in place with dignity. Our dedicated and compassionate team will endeavor to deliver state-of-the-art care in a nurturing and safe environment. Every member of our community, resident and employee, will be valued for their individuality while being treated with kindness and respect.”

Graduating with her nursing degree from Atlantic Cape Community College in 1996, Kathleen attributes her success to the nursing team she works with.

Certified in Basic Life Support (BLS - not intended for postnominal use), she is an active member of the American Nurses Association.

A Registered Nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province, or similar licensing body to obtain a nursing license. RN's fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
