

Miles W. Whitaker, MD, an Ophthalmologist with Pinehurst Surgical

Get to know Ophthalmologist Dr. Miles W. Whitaker, who serves patients in North Carolina.

New York, New York City, Sep 27, 2021 ([Issuewire.com](https://www.issuewire.com)) - Dr. Whitaker is a board-certified ophthalmologist whose areas of expertise include cataract surgery, ophthalmic plastic surgery, as well as the diagnosis and the treatment of glaucoma, macular degeneration, diabetic retinopathy, and dry eye. The doctor is currently serving patients at Pinehurst Surgical in Pinehurst and Sanford in North Carolina. He has done over 15,000 surgeries during my career.

Pinehurst Surgical was founded on the concept of teamwork and a true dedication to delivering quality patient care. For more than 50 years, these principles have shaped every aspect of the practice, from customer service and outpatient care to medical training and everything in between. Dr. Whitaker and the staff of professionals working there deliver advanced therapeutic and surgical solutions to problems affecting the health and appearance of the eyes. As Pinehurst Surgical's mission statement states: "Pinehurst Surgical will provide the best care to every patient in an environment that fosters teamwork, respect, and compassion for all." Specialty services are provided at seven location areas in the counties of Moore, Scotland, Lee, Hoke, Montgomery, Troy, and Richmond.

After earning his undergraduate degree in Biology from the University of Los Angeles California, Dr. Whitaker went on to obtain his Medical Degree from Loma Linda College of Medicine in Loma Linda, California. Wanting to further his education, he completed both his internship and residency at Fitzsimons Army Medical Center in Denver, Colorado.

In addition to being a member of the Lee County Medical Society and the American Academy of Ophthalmology, he is board-certified in ophthalmology by the American Board of Ophthalmology, an independent, non-profit organization responsible for certifying ophthalmologists in the United States of America.

Ophthalmology is a branch of medicine and surgery, which deals with the diagnosis and treatment of eye disorders. Ophthalmologists are experts in the diseases, functions, and anatomy of the eye. They may provide routine care such as vision testing, as well as prescribe and fit eyeglasses or contact lenses. However, ophthalmologists are also surgeons. They repair traumatic injuries to the eye and perform cataract, glaucoma, and corneal surgery.
