

Modern Logistic new Flight Cargo on Saturday

Launch Platform one stop-shop - Grow revenues 147 percent

New York, New York City, Sep 10, 2021 ([Issuewire.com](https://www.issuewire.com)) - Modern Logistics is pleased to announce a new scheduled cargo service between Campinas Viracopos (VCP) and Manaus (MAO). The route will create a critical new link between Manaus's large Free Trade Zone and the greater São Paulo consumer and producer markets.

With its mission of reducing the distances between key markets, Modern Logistics is set to launch the new service on August 21st with weekly flights every Saturday. This service will significantly enhance the flow of goods and products from Manaus' Free Trade Zone to São Paulo, Brazil's largest economic center while fulfilling regional demand for goods in Manaus' large consumer market.

About Modern

Modern Logistics (Modern Transporte Aéreo de Carga S.A.), a São Paulo-based logistics company that is transforming the industry throughout Brazil. Founded in 2010 by former airline executive Gerald Lee,

Modern has created a revolutionary platform that integrates air cargo, trucking, and warehousing with state-of-the-art data management to overcome the daunting challenges of connecting Brazil's vast interior regions to the economic centers along its coast. This model enables for the first time 1-day shipment of goods across long distances while reaching new customers in remote locations by air. Modern Logistics is the only firm of its kind in Brazil and the only company to offer fully integrated logistics services with its own dedicated aircraft fleet. With this concept, Modern is able to offer its customers a powerful tool to grow sales, improve efficiency and expand markets at speeds never experienced in the Southern Cone.

Modern Progress

In 2020, the company's revenues leaped 80 percent over 2019 levels. Through June of this year, revenues surged 147 percent over the same period of 2020. This impressive progress, amid an otherwise challenging economic operating environment wrought by the COVID pandemic, reflects strong demand for Modern's integrated multi-modal logistics services, including air transportation.
