Jack Spades Athleisure Announces the Launch of [Electrik H20 Collection](#)!

Jack Spades Athleisure is excited to announce the launch of their electrik h20 sports leggings. THESE COMPRESSION FABRIC SPORTS LEGGINGS ARE A MUST FOR MEDIUM TO HIGH-INTENSITY WORKOUTS. THEY'RE SOFT, COMFY, AND CHIC—IDEAL FOR ANYONE WHO ENJOYS AN ACTIVE LIFESTYLE WILL LOVE THEM. The official launch date for Electrik H20 Sports Leggings is the 9th of September.

[Jack Spades Athleisure](#) believes since the electrik h20 sports leggings are compression leggings they may help with increased circulation and for an easier recovery after exercise. Non-see-through and squat-proof with a pocket in the back for a phone makes it practical and an essential item for intense workouts.

The electrik h20 sports leggings are attached to a series collection of functional clothing including but not limited to crop tops, padded sports bras, shirts, jackets, etc. This collection really has a wide range of diversity and options from practicers of yoga to the intense runner.

Jennifer Thorpe the CEO of Jack Spades Athleisure said " I really like that we are doing the launch for curvy plus sizes first! Only available at the moment in 2XL and 3XL. Being one of the few companies that provide plus-sized athleisure wear so confidence can be attained no matter your size is very impactful to me".

As a single parent, I knew I needed to do something different. I started off making beard balms and oils because I saw a niche that needed to be filled. I quickly felt a desire to create comfortable clothing that can fit into any type of setting. Before I even knew the term athleisure, I was creating comfortable clothing that could go from the gym to dinner, to hanging out with friends.

Unisex clothing is available for all! This was when I also saw a need to create separate items for women to further drive comfort and style as seamless integration into our daily lives. This company strives to have clothing options that are eco-friendly and made from recycled materials.

As we are ever-changing continuing to be bold and innovative, come along with the journey to see how this evolves!
