

Nixon Gwilt Law Welcomes DCT Expert Laura Podolsky, Esq., to Firm

Podolsky's extensive experience in healthcare innovation and decentralized clinical trials make her a valuable resource for NGL clients

Virginia, Vienna, Sep 1, 2021 ([Issuewire.com](https://www.issuewire.com)) - Laura Podolsky, Esq., joined Nixon Gwilt Law (NGL)

as Senior Healthcare Innovation and Decentralized Clinical Trials Counsel on August 18, 2021. Prior to joining NGL, Podolsky served as Founding General Counsel for Science 37, a company helping innovators enable universal participation in clinical trials for patients and providers. While there, she led the development of the legal and regulatory strategies underpinning the decentralized clinical trial model.

Podolsky advises clients on matters related to clinical research, telemedicine, healthcare technology, and data privacy, as well as complex agreements and multiparty collaborations. She earned her J.D. and master's degree in public health from UCLA, and graduated magna cum laude from Duke University. A California-licensed attorney, Podolsky will serve NGL clients nationwide from her home office in Los Angeles.

NGL Managing Partner Carrie Nixon, Esq., says, "When I first talked with Laura, I was immediately struck by her sophisticated way of thinking about how to counsel clients and her pragmatic philosophy in providing legal advice. She fully aligns with Nixon Gwilt Law's approach to client service, and I can't wait for our clients to meet her."

Podolsky adds, "I am thrilled to have the chance to work with such a dynamic group of attorneys. I am excited to work with clients who are pushing boundaries in the DCT and health tech spaces, as well as clients who are focused on making existing services and approaches better for patients."

NGL seeks attorneys who are forward-thinking, tech-savvy, and entrepreneurial, just like their clients. Laura Podolsky fits this description to a T, and she'll be a valuable asset in working with novel and disruptive healthcare and life sciences companies seeking to transform how people receive and experience healthcare.
