

One World Blue, LLC Launches Blupela.net, The Social Good Network

The platform provides individuals, non-profits, creators, and businesses an outlet for illuminating the work they are doing to improve the world

Pennsylvania, Pittsburgh, Sep 22, 2021 ([IssueWire.com](https://www.issuewire.com)) - One World Blue, LLC, a multifaceted organization with a goal of spreading positivity and improving people's lives today announced the official launch of Blupela.net, "The Social Good Network". Blupela.net was an idea conceived and developed by CEO, Joel Pirchesky beginning with an essay he wrote when he was a young elementary school student.

Joel Pirchesky stated, "When I learned about Martin Luther King and his goals and vision I was immediately awestruck by his strength and empathy. Upon learning of his story, I was inspired to work towards making the world a better place. After receiving a Master's in Public Policy, I started the framework for One World Blue and BluPela.net." [Click here to purchase the essay and blessing [Peace in the World Essay and Blessing by Founder of One World Blue](#)].

BluPela.net is a social network that provides a platform for crowdfunding and contributing to posted works of positivity, creative talent, and charitable deeds. With a "Stand and Unite" friending system, it also lets small businesses, artists, and individuals who are working towards making a difference come together and help spread the good around the world. This is a global opportunity to make meaningful impacts in the lives of people. We have spotlight features that people and organizations can create on their own or we can help create them. All the fees we charge are significantly less than other sites that offer far less in services.

Joel Pirchesky continued, "Together we can be strong, and Unity is the Key. It takes a lot of bricks to build a house, but they must be laid one by one and side by side. The goal of BluPela.net is to let people help in tiny incremental ways. Those small bits help build and build and something great that can be accomplished. Lao Tzu said, 'A journey of a thousand miles begins with a single step'. A perfect example of this is our project to bring clean water to the Kodiiri Village in Uganda. We have brought water filters to this village and impacted the lives of hundreds of children." [Click here to read more about [The Blue World Water Project](#) and get involved]

Every two weeks, BluPela.net will be highlighting stories of hope and change and great deeds. We encourage people to join [[Register](#)] and let people know the Light they are bringing to the world and the people who are doing great things.
