

Real-world utilization for GLEETokens

Considering the benefits of Tokenization

California, Irvine, Sep 10, 2021 ([Issuewire.com](https://www.issuewire.com)) - [Dollarstore.com](https://www.dollarstore.com) has created the most usable digital currency conversion platform to date. DollarStore has developed the following utilities for GLEE316 where this token is not just a means for transfer of value or store of value but an exchange for things of value.

- DollarStore has established over 100 Online DollarStoresby convergence of e-commerce with

GLEE Tokens whereas Glee316 Members can Utilize GLEE Tokens to buy Consumables. DollarStore anticipates adding an additional 500 GLEE Owned stores by 4th Quarter 2021 to accommodate the rapid growth of the GLEE316 community.

- DollarStore is a Proven Business Model For over twenty-five years and Introducing GLEE Tokens will help spur internal awareness about this new technology.
- By partnering with Glee316, DollarStore has created a rewards and loyalty platform that will permeate the DollarStore owners to connect with their customers by utilizing GLEE tokens.
- Glee316 promotes marketing through an affiliate model where affiliates earn Glee tokens at two levels of 10% and 5%. The Consumer shopping at the DollarStore gets 20% of the sale in GLEE Tokens and the Store owner earns both the commission and bonus with a total of 40% of GLEE Tokens.
- Glee furnishes certain options that are simply not available with fiat currency. For example, programmable money can enable real-time and accurate revenue-sharing while enhancing transparency to facilitate back-office reconciliation
- DollarStore has also launched a training program with videos and personalized service with a Mobile shopping app thus providing the best value proposition to Consumers
- Both DollarStore and Glee316 are finding that ecommerce is the only way to make virtual currency's original promise: an instant, affordable, and borderless means of payment for the consumer and provide an intrinsic utility thus boosting the demand and price of GLEE organically, Consequently, our business may need to be positioned to receive and disburse crypto to assure smooth exchanges with key stakeholders.

DollarStore Digital Assets Practice

At DollarStore, our people work globally with Store owners, regulators, and policymakers to understand how blockchain and digital assets are changing the face of business and government today. New ecosystems are developing blockchain-based infrastructure and solutions to create innovative business models and disrupt traditional ones.

About DollarStore

Established in 1996, DollarStore.com is one of the world's largest and most complete online sources of general merchandise for the wholesale industry both domestically and internationally. DollarStore.com is an e-commerce superstore with an online catalog that offers general merchandise and grocery items typically found in DollarStores to Master Licensees, Franchises, and independent retailers. See more at www.DollarStore.com

About GLEE316

GLEE316 is a community-based group that supports Renewable Energy and Agricultural Distribution. The GLEE Token allows for participation and determines the Ecosystem in which it represents. The revenue generated from its participation projects is shared back with the GLEE316 community through a Harvest Program. See more at www.GLEE316.com
