

Strived Dutta from ANSSI Wellness Center makes it easier than ever to avoid spine surgery and medication completely.

Maharashtra, Mumbai, Sep 22, 2021 ([Issuewire.com](https://www.issuewire.com)) - ANSSI Wellness Center is bringing about a revolution in the Healthcare & Medical industry specifically in the area of spine treatment. Their approach secures spinal healing scientifically whereas spinal surgery causes weakening of the spine, making it less stable. ANSSI Wellness Center has significantly established its treatment by validating more than 1.5 thousand verified spine restorations.

As per the Business Wire India Key Highlights report:

- The 16-34 age group make up 20% of people treated for back and neck conditions in India
- The percentage of the young population going for back pain treatment is the highest in New Delhi
- 45% of people neglect their pain for more than 7 weeks which results in delayed treatment
- The treatment rate in women is lower than men. 46% of women opt for treatment compared to 54% in men
- 73% of people try other treatments that are not successful before spine rehabilitation
- 62% of people do not opt for spine surgeries
- The most common pain in the lower back pain and Herniated Disc (Slipped Disc) is the most common condition experienced by patients

Back or neck pain should not be neglected. Early treatment can solve the pain and the root cause of the problem within a short span of time providing complete recovery.

Why avoid surgery?

- The surgery failure rate is approx 60%
- Surgery causes a lot of pain & loss of blood. The aftereffects remain for weeks
- Hospitalization & medication required
- May cause side-effects like loss of weight & strength
- Chances of critical disorders like Paralysis are high
- 3X more expensive

BUT, the good news is you can avoid spine surgery with this USA patented technology, and using this ANSSI has avoided 1500+ surgeries. It's a 100% non-surgical treatment where no medication and hospitalization are required, apart from being completely painless. This nullifies any risks associated with surgery or anesthesia, so zero side effects.

ANSSI is Asia's 1st Center by the Real Spinal Decompression American Technology. With years of experience, ANSSI has successfully consulted and treated **1500+** patients from India, the USA, South Africa, Iran, Sri Lanka, Maldives, Tanzania, and Canada.
