We offer weekends, early morning, and evening appointments to fit your schedule and make your life a little easier. We see emergencies promptly and most time definitive treatment can be completed the same day.

Our office has been in business since 1989, initially in Sector 35-C, Chandigarh and presently in [Sector 44-C, Chandigarh](#) and Phase-1, Mohali and is committed to giving our patients the highest quality of Dentistry available.

Deep Dental Clinic & OPG Centre have a casual and relaxed atmosphere. We are always available to answer your questions. We pride ourselves on using the most up-to-date advancements in Cosmetics, Orthodontics, LASER, Periodontics, Dental Implants, and Restorative Dentistry.

We are also the 1st one to launch Dental Privilege Cards with lots of benefits for kids, individuals, and their families, along with the revolutionary Portable/Home Dentistry for everyone and especially for Elders, Bed-Ridden Patients, and Children with Special Needs and we are aiming to cover every corner of the Tricity with Portability in treatment.

Our dental clinic also adheres to the strictest OSHA and Sterilization techniques.

We also have full set-up at our Residence (address as mentioned) for odd-hour's emergencies. If you feel you are overdue to visit the practice, or if you are looking for a dentist who will understand and care for your specific needs, then our Deep Dental Clinic is the office for you.

There are so many dental implant clinics in Chandigarh. But people get confused why they should visit [dental implant clinics](#) because they are more focused on crowns and bridges. Crowns, bridges, and dentures address the short-term cosmetic problem of missing teeth but do nothing to stop bone loss. Crown & bridge dentistry requires grinding down healthy teeth leaving them at much greater risk for cavities and tooth failure. Bridges do not stop bone loss. Dentures become uncomfortable and unstable over the jawbone shrinks causing eating and speech problems.

With dental implants, healthy teeth are not compromised. Dental Implants, like natural teeth, stimulate the jaw and stop bone loss, leading dental organizations to recognize dental implants as the standard care for tooth replacement.

What Are Dental Implants?

[Dental implants](#) are the new standard of care for tooth replacement. They bond with healthy bone and provide permanent support for dental crowns and dentures. Dental implants look and feel like natural teeth and can last a lifetime.

Advancements In Implant Dentistry

[Deep Dental Clinic & OPG Center](#) is the best dental implant clinic in Chandigarh & Mohali. Our implants are lightweight, durable, biocompatible, and made from titanium. It is the most widely used material in implant dentistry. Our dental implants carry a lifetime warranty and are clinically proven by some of the most thorough and in-depth research in the industry.
