

10th-Legion Set to Launch NFT Presale

California, Los Angeles, Oct 31, 2021 ([Issuewire.com](https://www.issuewire.com)) - The 10th-Legion Team has been working round the clock to prepare for minting on the 13th of November at 3 PM UTC. Active members of the community can now secure a Whitelist position, which guarantees that you can mint up to five 10th-Legion NFTs without wasting hundreds of dollars on gas on the Ethereum Network.

10th-Legion is the latest Non-Fungible Token (NFT) project to be turning heads in the Digital Artwork space. The NFT landscape has been booming throughout 2021, with sales during the third quarter of 2021 exceeding \$10.7 Billion. NFTs have captured the imagination of art collectors, investors, and the general younger population, so 10th-Legion's entry into this booming market is very exciting.

The 10th-Legion Project will initially consist of 10,000 unique NFTs that act as keys to unlocking the 10th-Legion digital universe. Holders of these NFTs will receive exclusive access to the 10th-Legion Motion Comics and the Play-to-Earn NFT game. This means that, by simply owning their vibrant artwork, you can enjoy free access to the whole 10th-Legion ecosystem.

A "Motion Comic" is a comic book with hand-drawn illustrations that are animated, complete with voice acting and narrations. This would be a first in the NFT space. You can watch the teaser for the 10th-Legion Motion Comic here: [Teaser video](#).

As well as having unique, eye-catching artwork and the Motion Comic series, the team is also planning for a future Token release, called EON, to reward 10th-Legion NFT owners even further. The EON token will be the in-game currency for the Play-to-Earn game. The team has taken these steps to ensure that the NFTs provide high utility to their owners and keep the community engaged.

The best way to get involved with the project at this stage is to gain a Whitelist position for their first NFT presale on November 16th. Having a Whitelist pass ensures that you get a guaranteed allocation of up to 5 NFTs out of the maximum 10,000. There are only 2,000 Whitelist positions available, so if you're looking to get your hands on the 10th-Legion NFTs, the best way is to join their Discord channel and grab a Whitelist position.

About the 10th-Legion Team

The 10th-Legion Core Team comprises a group of old friends with extensive experience in the cryptocurrency and art spaces. Their artist, Abdal Mufti, has been making art publicly for years through his Instagram, which has over 150k followers. 10th-Legion is the culmination of their skills, experience, and hard work, and the team is inviting everyone to be part of the project.
