New York, New York City, Oct 20, 2021 ([Issuewire.com](https://www.issuewire.com)) - AI Furnish Space Saving Furniture Company Supports Airbnb Landlords in Raising Property Values

The company is one of the most trusted names in the smart furnishing industry.

[AI Furnish Space Saving Furniture Company](#) is pleased to announce it is offering luxury smart furnishing solutions for Airbnb landlords to help them raise the value of their rent.

AI Furnish is a revolutionary brand specializing in the production of unique furniture which allows customers to save space in any commercial or residential setting. The company's innovative products are specifically engineered with a space-saving design at its core while ensuring homes and businesses offer advanced technology and multi-functionality. AI Furnish is particularly known for its 50-position sofas and chairs, which are continuously trending on social media.

In the company's most recent news, AI Furnish is now offering its incredible designs to Airbnb landlords across the United States. By furnishing their properties with the company's products, landlords are able to raise the value of their rent while offering more convenience to tenants.

"Now, more than ever, landlords are capitalizing on the dire need for rental spaces across the country," says Mike Zelenkov, a spokesperson for the company. "This is due to the ongoing global pandemic and doesn't show any sign of stopping in the near future. To ensure they are getting the most out of their investments, we are now offering Airbnb furnishing options to landlords. We can provide a multitude of different concepts, designs, and pieces to suit any space, no matter how big or small."

On its convenient website, AI Furnish boasts a wide range of [smart furnishing options](#), including:

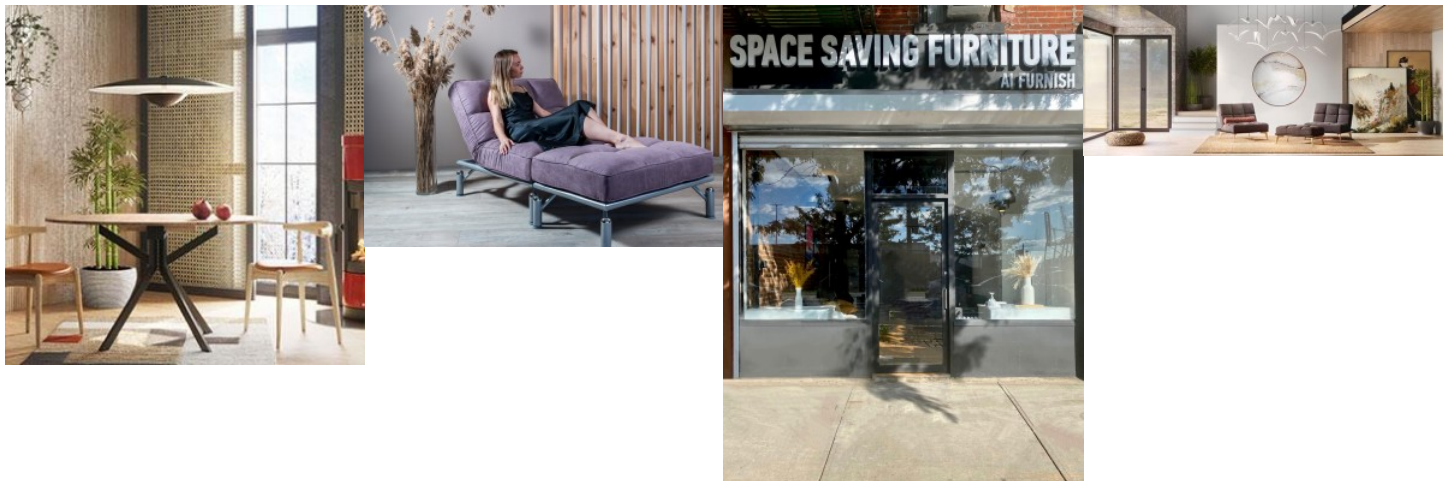

- Transformer sofas and chairs, with up to 50 comfortable positions
- Extendable and top-lifting tables
- Multifunctional wall beds
- Accent chairs
- And so much more!
