

## AppStudio Delivers an Exceptional User-Friendly Mobile App – The Viewgem!

The Viewgem application is yet another milestone in AppStudio's profile and an example of their technological comprehension and will to create innovative apps.

**Ontario, Toronto, Oct 14, 2021 ([Issuewire.com](http://Issuewire.com))** - AppStudio, the leading mobile app development company in Canada, has built an innovative application for Viewgem Tech Inc. The company aims at helping in discovering the "hidden Gems" deals around and supporting the local community engagement. The Viewgem app fulfils the same purpose, and users can discover deals and offers on food, entertainment, and services in their local areas.

The application is iOS based and developed using Swift 4.0 programming language. The layout is designed by keeping the user flow in mind, and the app is packed with some beneficial features, like mapping your local area for offers, easy redeeming, managing your offer history, track the money you saved, view the number of followers, automatically post deals on a future date, and more.

AppStudio kept the [Viewgem app's](#) UI/UX stable, user-friendly, and interactive. The app is compatible with iOS 13.2 onwards for iPhone and iPad, and macOS 11.0 onwards for MacBook users.

On the Launch of the Viewgem app, **AppStudio's spokesperson** said, "We are thrilled to be a part of this project, and by providing our utmost best efforts to deliver an excellent platform for the users, we aim to help the local businesses and community to engage more and nurture the neighbourhood."

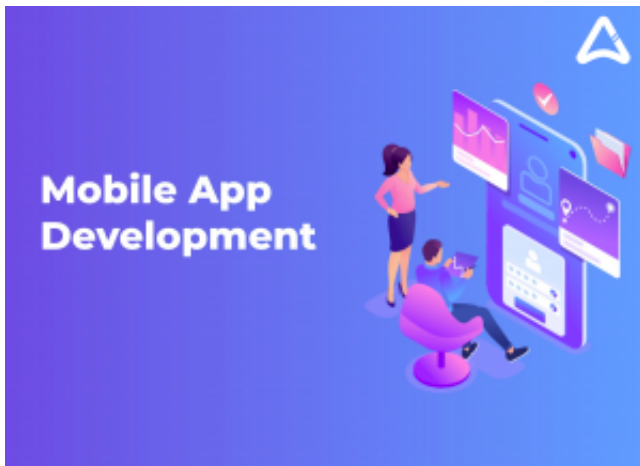

He added, "We strive to always improve the user experience by offering the best-in-class solutions. With Viewgem, cherish the joy of togetherness, save money, and support your local businesses!"

The Viewgem app offers easy signup and registering options and free premium unlimited deal posting until 2021 for merchandisers. Businesses can also save posts for future activations and create sub-accounts for the manager and staff use.

The primary idea to develop this app was to support the local businesses and allow customers to find fantastic offers around them. The Viewgem is another example of AppStudio's technical and domain expertise. The company focuses on striving even more to achieve many milestones in the future.
