

Crowdpoint Technologies Blockchan Ecosystem Exchange Launch

Texas, Austin, Oct 18, 2021 ([Issuewire.com](https://www.issuewire.com)) - CrowdPoint Technologies, Inc. ("CrowdPoint"), a Blockchain Ecosystem and Exchange provider, announced today the launch of its next-gen blockchain technology through its 11 sectors, public-private exchange strategy through the Blockchain Ecosystem Exchange ("BEX").

CrowdPoint's digital platform combines the power of big data, artificial intelligence, and blockchain technology to create a shared services platform for decentralized exchanges and marketplaces. With international development teams across North America, South America, Europe, Africa, the Middle East, and the Asian perimeter, CrowdPoint's goal is to democratize data behind human identity.

"At CrowdPoint, we deliver nextgen blockchain technologies. For the average global citizen, blockchain can be confusing and bewildering. It must seem everyone is becoming a billionaire overnight. This is likely because of the noise around businesses and currency models that use blockchain," says Sean Brehm, the Chairman & CEO of CrowdPoint Technologies. "We at CrowdPoint felt we had to make it understandable. While the potential of blockchain is disruptive and revolutionary, we believe the current use of blockchain and the subsequent wealth creation resulting from its adoption is potentially flawed and unsustainable. Our approach is simple: drive improved e-commerce using big data and blockchain to create revenue first and worry about speculation later."

The company has spent the last year in stealth integrating 11 market sector exchanges with its shared

services technologies - nextgen blockchain, big data, and artificial intelligence. The shared services also include technologies that help small and medium-sized companies grow and compete like large enterprises. The company has deployed its web-based communication service that comes prepopulated with millions of ideal customer profiles. This feat is possible through a big data customer resource manager. Also included is a website builder that provides web hosting and design services. Users can quickly build their site while integrating directly into nextgen blockchain technology. The company has already onboarded over 1000 Distributors and Resellers to date. CrowdPoint helps them sell their products online on BEX.

CrowdPoint is passionate about the success of blockchain technology and views the current cryptocurrency hype as having the potential for similar pitfalls that caused the dot-com bubble. The company created BEX to get "Left of Bang" and decrease the likelihood of another potential bust. Through a solid public-private blockchain-powered assembly of exchanges and marketplaces, CrowdPoint focuses on more efficient e-commerce.

This presentation may contain "forward-looking" statements within the meaning of the federal securities laws, and these statements involve substantial risks and uncertainties. All statements other than statements of historical fact could be deemed forward-looking, including, but not limited to, expectations of future operating results or financial performance, market size and growth opportunities, the calculation of certain of our key financial and operating metrics, plans for future operations, competitive position, technological capabilities, and strategic relationships, as well as assumptions relations to the foregoing. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. In some cases, you can identify forward-looking statements by terminology such as "guidance," "expect," "anticipate," "should," "believe," "hope," "target," "project," "plan," "goals," "estimate," "potential," "predict," "may," "will," "might," "could," "intend," "shall," and variations of these terms or the negative of these terms and similar expressions. You should not put undue reliance on any forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved, if at all.

Forward-looking statements are subject to a number of risks and uncertainties, many of which involve factors or circumstances that are beyond our control. Our actual results could differ materially from those stated or implied in forward-looking statements due to a number of factors, including but not limited to risks detailed in our filings with the Securities and Exchange Commission (the "SEC").

You can locate those reports on our investor relations website (investors.crowdpointtech.com) or on the SEC website (www.sec.gov). If the risks or uncertainties ever materialize or the assumptions prove incorrect, our results may differ materially from those expressed or implied by such forward-looking statements. Except as required by law, we assume no obligation and do not intend to update these forward-looking statements or to conform these statements to actual results or to changes in our expectations.
