The God Complex

The God Complex, set to deliver October 15th, 2021, is the first studio-recorded album in history to contain ten particular genres. From Rap to classical and everything in the middle, Eli Manna has done what no artist has before. The project is a story occurring at the start of Eli's life. He then, at that point, continues to stroll through each significant memory in the course of his life in sequential request, each being addressed by the melody.

The God Complex is a looming assortment of genres and colorful lyricism. Regardless, we sorted out some way to get our hands on a copy to get a little sneak look. This assortment is extraordinary in how it contains ten separate classes. Eli is anyhow prepared to hold together everything inventively tangibly. The tunes are all energy-like they're related to a comparative assignment. Nothing seems to be abnormal on the rack, regardless of the variety of delicious jams.

The God Complex will forever be a stamp in music history. Many believe that Eli Manna is the future of the music industry. With his ability to successfully write and record a variety of genres and attract the most diverse fanbase in history, it is hard to disagree.
