

## Genius Central Singapore defines the co-working & dining revolution!

**Singapore, Singapore, Oct 6, 2021 ([IssueWire.com](http://www.IssueWire.com))** - Genius Central Singapore is leading the way for a new work-dine dining revolution.

With their Work & Dine program, Genius Central Singapore is making waves in the F&B industry. It's no secret that the trend toward providing others with a place to Work & Dine is growing. This pandemic has had a significant impact on the workplace environment and many are looking for alternatives. Located along Amoy Street, Genius Central Singapore is strategically situated in the Central Business District. It has become a favourite spot for entrepreneurs, digital nomads and in recent months, those wanting to enjoy good food and a great ambiance whilst working. They are looking for a flexible conducive space, but do not require a traditional workspace or a long-term commitment.

At just \$18 a person per day, this Work & Dine program offers access to premium WiFi and power plugs for up to eight hours. It also includes \$18 worth of credit for food and beverages, meaning the charges for the amenities are effectively free. This promotion is a massive steal compared to its normal prices of \$18 and \$35 for 4 and 8 hours respectively for wifi and amenities.

Genius Central Singapore serves up a symphony of nutritious high plant-based creations, using organic

and whole food ingredients that are free of preservatives and adheres to the philosophy that food should be as close to nature as possible, with low human interference. They also take pride in offering an inclusive menu that caters to vegans, vegetarians, and those with a variety of dietary restrictions and allergies such as gluten-free, celiacs, lactose-intolerant individuals. There is also a selection of meat and seafood. Genius Central Singapore believes with all the right, natural ingredients, each one of us can ignite our own genius.
