

Ilya G. Berim, MD, a Pulmonologist and Critical Care Medicine Specialist with Robert Wood Johnson University Hospital

Get to know Pulmonologist and Critical Care Medicine Specialist Dr. Ilya G. Berim, who serves patients in New Brunswick, New Jersey.

New York, New York City, Oct 18, 2021 ([IssueWire.com](https://www.issuewire.com)) - A prominent pulmonologist and critical care medicine specialist, Dr. Berim is the Medical Director of Interventional Pulmonology at the Robert Wood Johnson University Hospital in New Brunswick, New Jersey.

Robert Wood Johnson University Hospital (RWJUH) has received national acclaim as a leading health care service, and has been recognized for outstanding clinical quality and patient safety. Their comprehensive, advanced treatments encompass everything from diabetes education and cancer treatments to heart and vascular care. Their staff is dedicated to creating a safe, comforting environment where patients and families can feel confident in the quality of their medical care.

Pertaining to his educational pursuits, Dr. Berim attended medical school at the University of Wuerzburg, Germany. After relocating to the United States, he completed his residency in internal medicine and his fellowship in pulmonary and critical care at the State University of New York at Buffalo.

An authority in his field, the doctor is board-certified in interventional pulmonology, critical care medicine, pulmonary disease, and internal medicine by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

In 2018, after six years as an Associate Professor at CHI Omaha — Creighton University's Department of Pulmonary and Critical Care Medicine — Dr. Berim joined Rutgers Robert Wood Johnson University Medical School as an Associate Professor of Medicine.

Pulmonology is a medical specialty that deals with diseases involving the respiratory tract. A pulmonologist is an internal medicine physician who specializes in preventing, diagnosing, and treating conditions and diseases that affect the lungs, bronchial tubes, and the respiratory system, including the nose, pharynx, and throat.

Intensive care medicine, also called critical care medicine, is a medical specialty that deals with seriously or critically ill patients who have, are at risk of, or are recovering from conditions that may be life-threatening. Critical care medicine specialists (also called intensivists) are medical doctors who specialize in the care of people who are in an intensive care unit (ICU). In some areas, when a person is very ill and has to spend time in an ICU, he or she is cared for by a critical care medicine specialist.

Speaking several languages, Dr. Berim is fluent in English, German, and Russian.
