

Indian Startup Search Directory Findmart Celebrates 5,000+ Listed Top Businesses

Karnataka, Bengaluru, Oct 27, 2021 ([IssueWire.com](https://www.issuewire.com)) - As online shopping and services boom, [Findmart](#) is glad to announce its latest milestone - the listing of **5,000+ top businesses** in its online search directory. Findmart is an innovative business listing player offering local search engine facilities in India, helping customers find the best caterers, chemists, contractors, couriers, event organizers, function halls, interior designers, restaurants, real estate, and many more near them.

The huge growth of the e-commerce sector during the pandemic and its continued expansion has created a demand for search services too. Especially for local businesses and customers, the need to be on the same platform has never been stronger. Findmart is one such search and finds service, a [local business directory](#) armed with maps and listings of all essential services.

Since launching the business four months ago, Findmart has connected several businesses to customers in their local region. Founded with the mission to bring quality [local search](#) to clients and residents, the company's wider vision involves encouraging local businesses to grow their revenue and clientele.

"After tons of research, we found people often faced problems in finding the right place to fulfill their daily needs. Our vision is, therefore, to address this situation through Findmart, where both the business owners and customers can communicate easily and benefit from each other's needs", says a spokesperson for Findmart.

Findmart has seen its visitor traffic grow significantly across eight popular cities in India where it is present. These are **Ahmedabad, Bangalore, Delhi, Chennai, Goa, Kolkata, Mumbai,** and **Vijayapura**. The company is working to expand its business to support [small businesses](#) across the nation.

"As the name suggests, through this platform, people can search for everything that they need for their day-to-day life. It's is a simple search engine for users to locate their needs with a service at the tip of their fingers", says a co-founder of Findmart.

Findmart was launched in the year 2020 by three friends. After graduating, they began hunting for jobs in the IT field. During their search, they realized that many people around them felt the need for getting

quick information on local shops, stores, and services. Hence, this led them to come up with a business prototype that would help people gain easy access to commodities that can fulfill their daily needs.
