

Kadia Bundu, MD, an Anesthesiologist with Mid-Atlantic Permanente Medical Group

Get to know Anesthesiologist Dr. Kadia Bundu, who serves patients in Maryland

New York, New York City, Oct 5, 2021 ([IssueWire.com](https://www.issuewire.com)) - Dr. Bundu is a board-certified anesthesiologist currently affiliated with Mid-Atlantic Permanente Medical Group, working in the Department of Anesthesiology in Largo, Maryland. She is skilled in clinical research, medical education, and epidemiology.

She joined the Mid-Atlantic Permanente Medical Group because she is delighted about the high quality of patient care this integrated, multispecialty medical group can provide. She and her colleagues are connected to each other and their patients through a state-of-the-art electronic medical record system. This innovative approach to providing health care will enable them to make better, more informed decisions, which will result in superior care for their patients.

The Mid-Atlantic Permanente Medical Group is an award-winning group of physicians dedicated to preventing disease and helping patients live their healthiest possible lives. Their doctors excel at delivering the best care to their patients, resulting in high patient satisfaction scores, recognition from outside organizations, and, most importantly, healthier, longer lives.

Throughout her academic career, Dr. Bundu earned her medical degree from the University of Iowa College of Medicine. She then went on to complete her internship at the Good Samaritan Hospital and her residency in anesthesiology at Rutgers New Jersey Medical School.

With over 10 years of experience in the field, she is board-certified in anesthesiology by the American Board of Anesthesiology (ABA). As the certifying body for anesthesiologists since 1938, the ABA is committed to partnering with physicians to advance the lifelong learning and exceptional patient care. Its mission is to advance the highest standards of the practice of anesthesiology.

On a professional level, Dr. Bundu is a proud member of the American Society of Anesthesiologists, the Society for Advancement in Blood Management, the Society for Airway Management, and Doctors Without Borders.

Anesthesiology is the medical specialty concerned with the total perioperative care of patients before, during, and after surgery. It encompasses anesthesia, intensive care medicine, critical emergency medicine, and pain medicine. Anesthesiologists have the primary responsibility of monitoring the patient's vital signs during surgery. In addition to basic measurements such as pulse, blood pressure, and temperature, they measure the patient's respiration.

On a more personal note, Dr. Bundu is fluent in English and Mende.
