Ontario, Pickering, Oct 27, 2021 ([Issuewire.com](https://www.issuewire.com)) - Are you looking to learn the piano quickly? Then, this may just be the solution for you!

[Talent Can Be Taught](#) is a music tutoring company based in Ontario, Canada which specialises in piano lessons. It is run by Stephen Riches, an experienced music tutor and gifted pianist in his own right. The ethos of the company is that anyone can learn the piano and that talent CAN be taught. Lessons are promoted for young and old with any level of skill or experience.

The brand provides a series of useful resources to subscribers and students, from a weekly newsletter to a series of webinars often taking place once a month. The information discussed ranges from tips for learning the piano, information about how to better enjoy music and its various benefits, and recommendations on how to be successful and gain a positive mentality.

In response to the COVID pandemic and lockdown, which saw many face-to-face industries struggle, Stephen has announced a new online course for his piano lessons. The course is made up of 7 interactive videos and goes from basic introductions to developing a musical ear. The class is designed to be suited to all schedules with the videos available whenever and this allows you to go at your own pace.

This new course is finely crafted to let learners gain confidence with chords and how to play the piano efficiently and effectively rather than just a basic information blast. To this end, this makes it perfect for children and less experienced people looking to learn the piano quickly and gain engaged experience. You can then choose to continue to pursue piano lessons further but the aim of the course is to give you a general understanding of music and teach you the piano. You also receive a certificate for completing the course.
