

MailConverterTools Has Launched An Exclusive Utility To Manage The IMAP Emails

MCT IMAP Migration Tool is a top-notch utility to backup & migrate all the emails of IMAP.

California, San Jose, Oct 29, 2021 ([IssueWire.com](https://www.issuewire.com)) - MailConverterTools is the most trusted organization that develops customer-oriented utilities for Email Migration, Data Recovery, and Cloud Migration. This time MailConverterTools comes up with the IMAP Migration Tool to backup & migrate the IMAP emails. It has some unique functionalities to ensure the reliability and trustworthiness of the data throughout the process.

Backup & Migrate IMAP Emails With IMAP Migration Tool

Internet Message Access Protocol (IMAP) is an Internet Standard Protocol used by many email clients to retrieve email messages from the mail server. It acts as an intermediary between the email client and the email server. MCT IMAP Migration Tool is an authentic way to backup the IMAP emails of various email clients. It also facilitates the migration of IMAP emails into different email clients. IMAP Email Migration Tool allows saving multiple IMAP emails locally on a hard drive without any data loss.

MailConverterTools IMAP Email Backup Tool

MCT [IMAP Migration Tool](#) is a reliable solution to manage IMAP emails by maintaining high data integrity. It facilitates migrating the IMAP emails into **Gmail, Yahoo Mail, Hotmail, Thunderbird, Office 365, etc.**, without affecting the email data. This software smoothly runs in all versions of the Windows OS. MCT IMAP Backup Tool has some prominent features that make it enhance the software functionalities.

- It allows users to backup their IMAP emails to various file formats such as **PST, PDF, TXT, DOC, MBOX, JSON, PNG, JPG, etc.**
- This software offers a feature to preview the mailbox data with their attachments before the migration process.
- It also facilitates the users to **remove duplicate mail** from the server after the backup process.
- Allows users to perform the **batch conversion** of IMAP emails without any data loss.
- MCT IMAP Migration Tool offers the **Mail filter** feature that allows users to select the emails between a particular timespan.
