

Nancy Jo Braden, MD, FAAP, FABCP, a Pediatrician & Clinical Pharmacologist

Get to know Pediatrician & Clinical Pharmacologist Dr. Nancy Jo Braden, in Phoenix, Arizona.

New York, New York City, Oct 5, 2021 ([Issuewire.com](https://www.issuewire.com)) - A caring pediatrician & clinical pharmacologist, Dr. Braden resides in Phoenix, Arizona. She is not currently seeing patients.

Regarding her educational background, she graduated cum laude with her Bachelor of Science degree in Microbiology and earned her medical cum laude from The Ohio State University College of Medicine.

She then went on to complete her residency in pediatrics and her fellowship in clinical pharmacology and toxicology at the same educational venue.

A Fellow of the American Academy of Pediatrics (FAAP), the doctor attained board certification in pediatrics through the American Board of Pediatrics (ABP). The mission of the ABP is to advance child health by certifying pediatricians who meet standards of excellence and are committed to continuous learning and improvement.

Moreover, Dr. Braden is board-certified in clinical pharmacology by the American Board of Clinical Pharmacology. Originally incorporated in 1976, the American Board of Clinical Pharmacology became an official standard of certification and accreditation in 1991, for both clinical and applied pharmacology.

Pediatrics is the branch of medicine that involves the medical care of infants, children, and adolescents. The American Academy of Pediatrics recommends individuals be under pediatric care up to the age of 21. Pediatricians provide medical care to people ranging in age from newborns to young adults. They are trained to examine, diagnose, and treat children with a wide variety of injuries and illnesses through all of their developmental stages, as they grow and mature.

Clinical Pharmacology is the science of drugs in humans and their optimal clinical use in patients. It is underpinned by the basic science of pharmacology, with an added focus on the application of pharmacological principles and quantitative methods in the real human patient population. Clinical pharmacologists are doctors with training in clinical pharmacology and therapeutics (CPT), which is the science of medicines and their clinical use. Their main role is to improve patient care through the safe, economic, and effective use of medicines.
