

Partnership Announcement: Uquid and Binance Pay

London, Victoria, Oct 20, 2021 ([Issuewire.com](https://www.issuewire.com)) - *Uquid customers will make payment faster when transactions on the platform are integrated by Binance Pay, the world's largest crypto changeover by transaction volume. This new growth will provide a faster and more convenient investment environment for all NFTs Investors.*

Listing and trading faster on Uquid

We are pleased to announce the partnership with Binance Pay to mark an important turning point in our plan to assure that our customers have a satisfied payment experience and increase transaction liquidity for our e-commerce ecosystem.

Binance Pay is a contactless, borderless and secure user-to-user cryptocurrency payment feature on the Binance App with more than 40 cryptocurrencies supported. Binance Pay allows users to pay, send and receive crypto payments around the world without incurring any fees. Binance Pay also allows merchant-based transactions, letting users and merchants choose their preferred payment options.

What is UQUID Digital Shop?

Uquid e-commerce platform is a hub where customers not only buy digital products like gaming software, popular brand vouchers, gift cards but also make payments for tops up or bills.

Besides, we are proud to be one of the most friendly platforms to support influencers to sell their NFTs without any charge of minting and listing and bring their artworks closer to their fans and investors, which creates a new ecosystem for everyone to sell, buy and trade on.

Hence, apart from earning cash from Youtube/Tiktok views or reviewing products for specific brands, they can increase their income by selling their digital works directly.

About Binance

Binance is the world's largest crypto-asset exchange, with nearly \$40 billion of trading volume per day. In addition to making a market for crypto assets, Binance provides an extensive range of crypto and blockchain-related services for individuals and institutions.
