

P.P.G. Works Completes Extruder Industrial Gearbox Repair In Record Time For Customer

P.P.G. Works assures premium quality and faster gearbox repair services with the help of cutting-edge tools and a highly experienced team of technicians.

Florida, Orlando, Oct 15, 2021 ([Issuewire.com](https://www.issuewire.com)) - Houston-based renowned gearbox repair company, P.P.G. Works, has taken the gearbox repair world by storm lately by completing a complicated industrial gearbox (Extruder) repair project in record time for a customer. The company is widely revered as one of the top leaders in the industrial gearbox repair scene, and the latest feat propels P.P.G. Works to be the one-stop go-to company for industrial gearbox repair in the country. P.P.G. Works has experience repairing all kinds of gears, including cast iron, steel, bronze, brass, and worn gears.

P.P.G. Works is available 24/7/365 days and is flexible for prompt emergency service.

"It's a pleasure to share with you all that we have recently completed an Extruder industrial gearbox repair for a customer in record time. Our client was delighted, and it felt great to not only meet but also exceed the expectations of our clients", stated the leading spokesperson from P.P.G. Works.

What keeps P.P.G. Works ahead of the curve is its investment in the most state-of-the-art tools and techniques, as well as a seasoned and highly trained team of technicians. The company has been in business for more than 35 years now and can handle all kinds of gearbox repair needs- no matter how complex it is.

"Our highly experienced team of technicians deploys only the latest machine tools which help them to complete the job faster, and that too with the assurance of industry-leading quality. We also ensure prompt, responsive times so that our clients can have their gearbox up and running as soon as possible."

The spokesperson stressed that unlike regular gearbox repair companies that often advise buying a whole new gearbox while approached with a gearbox problem- P.P.G. Works mainly attempts to settle the matter with quality repair work to ensure a relatively economical option for the customers.

The company offers a comprehensive gearbox repair service, starting from cleaning to inspection to repair. P.P.G. Works also helps prepare gearboxes for long-term storage and gearbox reconditioning with 24 months of warranty.

"No gearbox is irreparable or scrap to us. We hold skill levels on two shifts and cutting-edge machine capabilities to handle even the most complicated repairs. Unlike most of our competitors, we won't force you to waste money on a whole new gearbox when there is a complex problem- rather, we would try our best to repair the issue, saving up to 60% from O.E.M. for our clients. All our repair projects are carried out based on the manufacturer's original specifications, and we use genuine spare parts wherever possible."

P.P.G. Works is compatible to work on the industrial gearbox of almost all major models and brands, such as Lufkin, Davis-Standard, The Horsburgh & Scott, Waukesha Cherry-Burrell, Lighting, and so on.
