

Sharam Kohan's 2022 Networking Event

California, San Francisco, Oct 3, 2021 ([IssueWire.com](https://www.issuewire.com)) - Sharam Kohan is sponsoring a non-profit governance networking event on March 14, 2022, in San Jose. This exercise will provide participating non-profit organizations with an opportunity to connect with board members and leaders of other non-profit organizations, assess their governance capabilities, and plans. It will focus on decision-making, governance versus management. The expected outcome of the event is to strengthen and enhance the management of nonprofit organizations.

The event is intended to communicate best practices that can help avoid negligence in governance and poor management performance, or a lack of alignment between the two, that often cause disastrous consequences for the stakeholders as well as for the entity as a whole.
