

Vietnam Garment Manufacturer remains a major uniform & workwear exporter during global supply problems

As the firm continues to aggressively expand into new areas, workforce suppliers throughout the world have discovered a high-quality clothing source.

Vietnam, Thanh Pho Ho Chi Minh, Oct 25, 2021 ([Issuewire.com](https://www.issuewire.com)) - While worldwide trade is regaining its footing following a pandemic that disrupted supply chains in nearly every industry, Dony Garment has remained a step ahead of the competition by delivering competitively priced, high-quality uniforms and workwear to suppliers/distributors all over the world.

Pham Quang Anh, CEO of Dony Garment, said, "We are pleased to be a top uniform and workwear provider in the Americas, Europe, and the Middle East." "Over the previous two years, we've demonstrated how solid our ties to multinational firms are, and how we're consistently the first and best choice when it comes to outfitting the personnel."

Pham credits their long-term success to their position outside of the traditional global hubs of [uniform and works clothing production](#).

"A lot of our clients are seeking to expand their sources of supply right now, and we're ready to help," he said. "We can avoid many of the difficulties that arise from commerce in China, Bangladesh, and Thailand because we are a trusted manufacturer outside of those countries. Our clients enjoy the care and attention given to their orders by our wonderful staff throughout the manufacturing process, and we are delighted to operate in the heart of Vietnam."

"Clients see the value of the fairly priced, high-quality items we bring to the market from sources other than the usual locals right away, and they stay with us for the long haul. We've learned how to profit from our position as a trusted industry partner over the previous few years.

Business attire for all seasons, Simple Fashion and Casual Wear (kid's, men's & women's), t-shirts, jeans, workwear, jackets, aprons, school uniforms, cheerleading uniforms, and more are among the items Dony makes for industry, office professionals, and field employees for wholesalers and distributors across the world.

Customization possibilities are available on all DONY products, guaranteeing that the customer not only receives a high-quality garment, but also one that may serve as a strong advertisement for any business.

"We've completed everything," Pham stated. "Our clients know Dony Garment can meet their supply demands, from golf uniforms, coffee shop aprons to supplying whole factories with head covering, blouses with sleeves, windbreakers, tank tops, and skirts."

They also designed workwear for nearly every industry.

"With Dony Garment, your workers will appear professional and comfortable at a fair price, from corporate and enterprise to restaurant, spa, and resorts," Pham added.

Dony frequently makes school uniforms for all levels of education (Elementary - Primary - Secondary - Preschool-Kindergarten) in addition to their uniform production for industry. They are the main uniform maker in Vietnam for foreign schools such as the Vietnamese American School (VASCHOOLS), the

American School (TAS), and the International School of North America (SNA)...

While the company's location in Vietnam has provided certain benefits, Pham credits the company's continuing development to its ability to deliver items on time and with a quality guarantee.

"In business, punctuality is everything," Pham said. "Getting a delivery out on time is a cornerstone of our clothing operation." "However, this does not imply a reduction in quality. We are eager to assist our clients to resolve any issues they may have, which is already uncommon."

"Our free sample program, low-cost design services, and free design services have attracted a huge number of returning clients. For that business clientele, we want to be a one-stop-shop."

Many of those trustworthy corporate clients have already been discovered by DONY in various nations across the world, but Pham said they are continually trying to expand.

"We are always pleased to talk with clients regarding how we can be their clothes supplier, no matter where they are," he said. "Especially now that more and more countries are requiring an antibacterial washable cotton face mask as part of their uniform."

During the early days of the pandemic, we were one of the finest producers of reusable antibacterial face masks, and we continue to be so today."

"Our face masks may be customized and branded with a corporate logo to serve as an advertisement as well as a virus-blocking barrier. They're light, have three layers of protection, and have been approved by health agencies all around the world."

"Of course, all of our worker clothing options are of the highest possible quality, however when it comes to face mask protection with our Dony Mask, performance is a life or death issue, and we take it very seriously."

By the third quarter of 2021, Dony Mask already has Exclusive Distributors in Australia, New Zealand, Belgium, Malaysia, the United Arab Emirates, Canada, Saudi Arabia, Kuwait, Oman, and Bahrain.
