This Halloween, Amazon Alexa users will be whisked away to the world of Wizard's Brew

Nevada, Las Vegas, Oct 19, 2021 ([Issuewire.com](https://www.issuewire.com)) - This Halloween, [Amazon Alexa](#) users will be whisked away to the world of [Wizard's Brew](#). Available now, Wizard's Brew is the latest release from Toronto gaming studio The Parlor Walls, creators of acclaimed Amazon Alexa skills including [Detective X](#) and Nine Lives Trivia.

Designed specifically with [Amazon's Echo Show](#) and [Fire TV](#) in mind, Wizard's Brew's visuals offer a

lively immersive gaming experience in which you get to help a bumbling wizard create a magic recipe. Choose from the grossest ingredients, including zombie's brains, dragon's boogers, and sea monsters' eyeballs. Then watch what happens when they're mixed together. Each combination of ingredients ends in its own surprising outcome. Everything from monsters playing instruments to 10-foot tall kittens.

"Wizard's Brew was inspired by b-movies and Saturday morning cartoons," says The Parlor Walls founder Clint McLean. "It features an original soundtrack and a mix of animation, claymation, stop-motion, and low-budget special effects that are fun for kids of all ages!"

Wizard's Brew is available in all of Amazon Alexa's English regions (US, UK, Canada, India, Australia) and also includes an audio-only version. So just say the magic words and "ala kazam, ala kazoo", Alexa has opened Wizard's Brew.
