

Antonette T. Dulay, MD, a Perinatologist & Maternal-Fetal Medicine Specialist with Main Line Health and Axia Women's Health

Get to know Perinatologist & Maternal-Fetal Medicine Specialist Dr. Antonette Dulay, who serves patients in Pennsylvania.

fetal medicine specialist, Dr. Dulay is affiliated with Main Line Health and Axia Women's Health, serving patients at the Lankenau, Paoli, Bryn Mawr, and Riddle Perinatal Testing Centers of Main Line Health. She also sees patients at Axia's Oaks and West Chester perinatal testing center locations. She is currently the Section Chief, Maternal-Fetal Medicine, in Main Line Health's Department of Ob/Gyn.

The doctor's specific high-risk interests not only include ultrasound prenatal diagnosis, amniocentesis, and prenatal screening, but also include preterm labor, preeclampsia, hypertensive and cardiovascular disease in pregnancy, diabetes in pregnancy, rheumatologic diseases in pregnancy, and infectious disease in pregnancy.

Regarding her educational background, Dr. Dulay graduated *magna cum laude* from Barnard College of Columbia University, where she received a Bachelor of Arts degree with honors in English Literature in 1998. She went on to earn her medical degree in 2002 with honors in Biochemistry from the New York University School of Medicine. There, she also completed the NYU Honors Research Training Program, and her residency in obstetrics and gynecology, graduating in 2006. She then went on to complete her fellowship in maternal-fetal medicine at Yale University School Medicine in 2009.

A member of the American College of Obstetricians and Gynecologists and the Society for Maternal-Fetal Medicine, she is board-certified in maternal-fetal medicine and obstetrics & gynecology by the American Board of Obstetrics and Gynecology (ABOG). The mission of the ABOG is to define specialty standards, certify obstetricians and gynecologists, and facilitate continuous learning to advance knowledge, practice, and professionalism in women's health. She is also a member of the American Institute of Ultrasound in Medicine.

Dr. Dulay has authored several peer-reviewed publications. She is currently a contributing editor to the Abnormalities in Pregnancy section of the Merck Medical Manual.

Maternal-Fetal Medicine (MFM) is a subspecialty of obstetrics and gynecology that focuses on managing health concerns of the mother and/or fetus prior to, during, and shortly after pregnancy. Maternal-fetal medicine specialists are physicians who subspecialize within the field of obstetrics. For pregnant women with chronic health problems or other complications during their pregnancy, MFM specialists work to keep them as healthy as possible while their bodies carry a pregnancy. They also care for women who face unexpected problems that develop during pregnancy such as early labor, bleeding, or high blood pressure. MFM specialists also diagnose and treat fetal conditions, such as birth defects and intrauterine growth restriction.

As a testament to her dedication, Dr. Dulay has been the recipient of the On-Time Doctor Award (2016, 2015), and Compassionate Doctor Recognition (2015). She has also received Main Line Today's Top Doctor recognition since 2018. She has also garnered awards from the Society for Maternal-Fetal Medicine.

Happily married, she has two children aged 12 and 9.
