

Call for immediate de-escalation at the Belarus-Poland border

Children and families among those being warned to 'go back to Minsk' as police hostility and humanitarian crisis worsens

London, United Kingdom Nov 10, 2021 ([IssueWire.com](https://www.issuewire.com)) - The recent humanitarian situation on the border between Belarus and Poland keeps us very apprehensive and we strongly condemn what is happening. Thousands of people, including women and children, cannot pay the price of political choices or diplomatic disputes. This is the appeal launched by Maurizio Cusimano Human Rights Ambassador of INGO UNDC based in London. There are thousands of refugees massed along the border and at the end of his strength he says - Maurizio Cusimano - that Poland is rejecting - without intruding into political choices, innocent people cannot be allowed to be abandoned to themselves -. At the moment the UNDC INGO Ambassadors of Peace are engaged in spreading their appeals to the two Nations to find a solution in line with international humanitarian law and international laws.
