

Cameron Loudill, MD, MS, a Diagnostic and Interventional Radiologist at Synergy Radiology Associates PA

Get to know Diagnostic and Interventional Radiologist Dr. Cameron Loudill, who serves patients in Houston, Texas

New York City, New York Nov 9, 2021 ([IssueWire.com](https://www.issuewire.com)) - Dr. Loudill is a board certified diagnostic and interventional radiologist who welcomes patients at Synergy Radiology Associates PA in Houston, Texas. He embraced his current role in 2020 following the completion of his fellowship training in

vascular and interventional radiology at OHSC.

“Synergy Radiology Associates is Houston’s premier radiology team comprised of more than 90 Board Certified Radiologists, a highly skilled clinical staff and a vast group of support professionals. Synergy Radiology Associates is focused on remaining the leading provider of medical imaging services through a dynamic, innovative, patient-centered approach. Our customers are our patients and the physicians who refer them to Synergy Radiology Associates, and our focus is on providing the best possible care and service to patients and physicians alike”, states the official website of Synergy Radiology Associates.

Following the completion of a Bachelor of Science degree in Biology at Missouri State University in 2009, Dr. Loudill completed a Master of Science degree in Biomedical Sciences at Rosalind Franklin University of Medicine and Science in 2010. He commenced his foray in the medical field with a medical degree acquired in 2014 at Chicago Medical School at Rosalind Franklin University of Medicine and Science. He then served a transitional year at the University of Maryland-Midtown Campus (2014 - 2015), residency in diagnostic radiology at Brown Medical School (2015 - 2019), and fellowship in vascular and interventional radiology through Oregon Health & Science University (2019 – 2020).

Licensed to practice in Texas, Dr. Loudill is board-certified diagnostic radiology with a certificate of added qualification in vascular and interventional radiology by the American Board of Radiology. Established in 1934, the American Board of Radiology is a not-for-profit physician-led organization with headquarters in Tucson, Arizona. It oversees the certification and ongoing professional development of specialists in diagnostic radiology, interventional radiology, radiation oncology and medical physics.

Radiology is the medical discipline that uses medical imaging to diagnose and treat diseases within the body. **Interventional radiology** is concerned with various minimally-invasive procedures using medical imaging guidance, such as x-ray fluoroscopy, computed tomography, magnetic resonance imaging, or ultrasound.
