Noida, Uttar Pradesh Nov 16, 2021 (Issuewire.com) - Considering the population of a country like India, there are a huge number of potential graduates that are produced every year by the country. However, the number of seats available for higher medical education amounts hardly to 90,000-1 Lakh, and this includes both the government and private college seats all over the country. It's this dichotomy that results in many deserving candidates being left out. In such a case, the prospect of pursuing an [MBBS in abroad](#) becomes the best alternative.

When students pursue MBBS abroad, they are exposed to world-class education and are given a medical degree that's recognized across the world. All this is offered at fees quite lower than that of Indian medical colleges/universities. The 2 main reasons for this are that almost all universities abroad are public institutions i.e government-funded (and thus, subsidized) and on the other hand, these do not charge any donations/capitation fees for MBBS abroad.

To give the much-needed headstart to students for their journey abroad, Affinity Education conducts free and walk-in seminars in various cities. Here, students can interact with India's top educational counsellors who shall guide them regarding anything and everything. Whether it's choosing a country or a specific university in any country, their counsellors have got it all covered along with details regarding how to proceed for admission, education loan, visa, etc. Considering that [MBBS in Russia](#) is the most preferred prospect, students can expect the most genuine counselling in these seminars.

Another very much demanded prospect is that of [MBBS in Ukraine](#). Just like Russia, most universities here have had great positive legacies since the Soviet days. Thus, choosing one out of all these prestigious institutes becomes difficult. Once that's out of the way, there comes the document, visa, and ticket-related formalities that many do not have a good idea about. Thus, it's these seminars where students can get the much-needed clarity regarding all these doubts and problems. The main purpose is to get the student ready in all ways to start their journey abroad.

Affinity has been successfully conducting these seminars for 4-5 years all over the country, which has resulted in a number of students being successfully placed in universities abroad. There are several other seminars lined up for the month of November, which have been listed below: -

- Rohtak/Hissar on 20 Nov 2021
- Agra/Meerut on 21 Nov 2021
- Allahabad/Gorakhpur on 27 Nov 2021
- Varanasi/Patna on 28 Nov 2021
