

Essential Apple and smart phone accessories from Baseus

A list of six handy tech solutions to life's everyday problems. Perfect for upcoming Christmas gift guides, essential travel accessory round ups and Top 10 lists. Available for reviewers upon request.

New York City, New York Nov 9, 2021 ([IssueWire.com](https://www.issuewire.com)) - With the recent release of the iPhone 13 alongside a series of refreshed devices including the Apple Watch, iPad Mini, and iPad, Baseus has created a list of the top 6 essential accessories you'll need to make the most of your shiny new tech.

Baseus, the innovative digital accessory brand, specialises in making everyday life easier through a range of handy solutions to tech-based problems. Placing sleek design, functionality, and trustworthy build quality at the forefront, Baseus has been researching, developing, and designing tech accessories since 2009.

With a variety of products on the market, the brand wants to help iOS users enjoy their new phones, tablets, and smart watches, pain-free; so here's a selection of accessories that can help do just that.

Baseus' **20000mAh Portable Power Bank** has a powerful 65W output that can fast-charge devices whilst you're on the go. With advanced charging guards and a 3-mode digital LED display that shows the exact percentage of remaining battery, voltage, and current, this is a great accessory for individuals dashing between meetings or preparing to take a long road trip.

Available from \$49.99

For users with a variety of tech needs, the **Baseus 8-in-1 USB C Hub Docking Station** comes complete with a PD charging port, 4K HDMI port, SD/TF card slot, 1000M ethernet port, and three super speed USB 3.0 ports. As accessories go, the utility of this product makes it perfect for both home and work life. Merging minimal lines with a brushed aluminium finish, the docking station brings reliability and elegance together to help you deliver a flawless presentation as well as a steady 4K film in your home cinema.

Available from \$39.99

Something that every person needs in their bag is the **USB-C Charging station**, compatible with the iPhone 13, Apple Watch, iPad, iPad Mini, and MacBook Pro. With GaN II Technology, 4 ports, and 100W output, this charger powers 5x faster than your standard options, allowing you to juice up multiple devices simultaneously.

Available from \$54.99

If you, like most, won't need to charge two laptops at once, then the **USB-C Fast Charger** might be the best option for you. Compatible with the MacBook Pro, iPhone, iPad, and iPad Mini, this 100W charger can power a single device at lightning speed: an iPhone can be charged from zero to 50% in as little as 25 minutes, whilst a MacBook Pro can be charged from zero to 100% in just 2 hours. Now that's fast.

Available from \$49.99

The **USB-C Charging Cable** is an everyday essential that'll get heavy use. Capable of transferring 100W of power, this rugged, nylon-braided cable is compatible with all USB-C devices. With a smart chip that can regulate the current and voltage to suit different devices, this is ideal for Apple users; whether it's transferring at a blazing 0.48 Gigabits Per Second or fast charging your mobile phone – this is a sturdy and dependable option that will last.

Available from \$12.99

The **Wireless Charging Station** from Baseus is an accessory that actually helps you put your phone down. As we spend increasing amounts of time on our screens, this ingenious product encourages users to simply place their phone on top of it and walk away. The station also protects your device from overcharging and comes with a compact glass and aluminium body that's sturdy and small enough to carry around.

Available from \$22.99
