SAMURAI AWARDS™

Industry Samurai Conference & Awards 2021 In Manufacturing & Supply Chain

HONOURING INDIA'S TOP MAKERS & MOVERS

When – 10th to 17th of December - Where – Virtual

JURY BOARD

Ms. BHAIRAVI JANI	Dr. RAKESH SINHA	Dr. NIKHIL AGARWAL	Dr. RANJIT S. PATIL	Prof. DEBMALLYA CHATTERJEE	AANAND PANDEY
Chairperson & Founder, IEF Entrepreneurship Foundation & Executive Director, ICA Group	Founder & CEO, Reflexive Supply Chain Solutions	CEO, IIT Kanpur (FIRST & CII Hub)	Head - Dept of ME, Birla Institute of Technology & Science (BITS) Pilani, Goa Campus	Professor and Head - Operations and Supply Chain Area at S. R. Jain Institute of Management & Research	Editor, Dynamic Manufacturing Magazine; Associate Editor, The Randall R. Kendrick Global Supply Chain Institute, USC, USA.

Platinum Sponsor	CNC Partner	Technology Partner	AR / VR Partner	Agency Partner	Media Partner
					 

Bengaluru, Karnataka Nov 22, 2021 ([Issuewire.com](https://www.issuewire.com)) - Head – Industry Samurai Awards and conference 2021

SubHead – Honouring India's Top Makers and Movers

Meta Data – Meshmix Media, Samurai Awards 2021, Industry samurai Awards, Manufacturing, technology, Supply chain, Logistics, Digitization

Today, India's manufacturing industry stands at a defining juncture. At home, the industry has upon it the responsibility of providing the economy a much-needed push. At the global level, manufacturers and consumers look for new manufacturing hubs to take on the pent-up demand of the post-pandemic years. India, with its democratic institutions and educated workforce, and a zest for enterprise, finds itself among the top contenders.

By all accounts, India's manufacturing sector is punching far below its weight. Even though, in terms of GDP share, at 16 percent, India is comparable to that of other large economies such as Japan (19 percent) and the US (12 percent), at the global level it has miles to go. Presently, India accounts for 3 percent of global manufacturing output, far below that of Germany (7 percent), the US (18 percent), and of course, China (20 percent).

Clearly, a lot needs to be done, and the government's Make In India campaign envisages fast growth and a vibrant future for the sector. Among the campaign's chief objectives is to launch and drive campaigns to bring manufacturing to the front and center of people's imagination and aspirations.

In its small way, MeshMix Media, through its publishing platforms — Dynamic Manufacturing India magazine (DMI), www.machineinsider.com, and www.scm-log.com — has been doing its part to contribute to the cause. Over the last five years, we have captured the voices and experiences of manufacturers of industries such as aerospace, space, automotive, machine tools, disruptive tech, and medical devices.

Taking it a step forward, in 2020 MeshMix Media instituted an award, titled 'Industry Samurai Awards™' with an aim to recognize and felicitate manufacturing and supply chain companies and stakeholders who responded boldly and bravely to the once-in-a-century crisis. The Awards drew a greatly encouraging response, and we owed a lot of it to our esteemed Jury members who brought credibility and gravitas to the forum.

This year, we aim to go bigger. We intend to find winners based, not just on their response to the pandemic, but also on their financial and qualitative performance and customer service demonstrated during fiscal 2021. This year's awards provide a template for the type of performance that we will recognize through these awards in the coming years.

Industry Samurai Awards and conference 2021 Schedule

DAY ONE (10-12-2021, Friday)

Track 1: 11am - 01:00pm

Keynote Panel: What Will It Take India to Build a Global Manufacturing Brand

DAY TWO (11-12-2021, Saturday)

Track 2: 11am - 01:00pm

Carmakers' Preparedness for a Greener Future

DAY THREE (13-12-2021, Monday)

Track 3: 11am - 01:00pm

Software Solutions for Competitive Edge in Manufacturing

DAY FOUR (14-12-2021, Tuesday)

Track 4: 11am - 01:00pm

The Role of Aerospace in India Growth Story

DAY FIVE (15-12-2021, Wednesday)

Track 5: 11am - 01:00pm

Chip Famine: Causes and Learnings for India's Manufacturing and Supply Chain Industry

Track 6: 4:00am - 05:30pm

Global Post-Pandemic Demand Bounceback: Is India's Supply Chain Ready

DAY SIX (16-12-2021, Thursday)

Track 7: 11am - 01:00pm

Digitalization in the Machine Tool Industry: Advantages and Challenges

Track 8: 4:00am - 05:30pm

Automation and Artificial Intelligence Will Replace Humans in Manufacturing: Myth or Reality

DAY SEVEN (17-12-2021, Thursday)

Track 9: 11am - 01:00pm

Global Post-Pandemic Demand Bounceback: Is India's Manufacturing Ready

Track 10: 4:00pm - 6:00pm
