

International Producer John Seda Releases New Single “Where are you now Mr. Jimi?” in honor of Hendrix’s 79th Birthday

Tampa, Florida Nov 29, 2021 ([Issuewire.com](https://www.issuewire.com)) - Tampa-based international producer [John Seda](#) releases his tribute single [“Where are you now Mr. Jimi?”](#), to the late musician Jimi Hendrix. In music history, Hendrix, has been regarded as the best instrumentalist of all time and continues to inspire many including singer, songwriter, musician, and producer John Seda. Seda is the owner of [Rising Sun Music](#)

[Recording Studios](#). His professional portfolio includes collaborations with GRAMMY, Gold, Platinum, and Hall of Fame recipients and soundtrack credits seen on Bright House, Cablevision, Cox, Netflix, and Time Warner to name a few. “Where are you now Mr. Jimi?” is a call to action to recapture the essence of what once qualified as “good music”. During Seda’s early teen years Hendrix’s music inspired his own pursuit into the industry. Although he would go on to hone his [Seda] skills in many alternative styles of music, it was Jimi’s musical fashion that’s reflected in Seda’s soul. This year the multitalented producer penned “Where are you now Mr. Jimi?” as an ode to Hendrix’s legacy post his passing. Seda’s crooning can be heard over his ensemble performance using a variety of bass, electric, acoustic, and 12 string guitars as he channels the musical heritage of the late guitarist by using his catalog within the lyrics. With Luis Alicea on the drums, Marianni Biondi singing background, Seda aims to tell a story from a friendship point of view,

“Jimi’s music has inspired me like none other since I was 13. Although, I never had the privilege to know him personally, his music helped me through many situations, pushed me to go further with my own talent, and inspired this tribute song. It’s through his music Jimi has always been a friend.”

[“Where are you now Mr. Jimi?”](#) is currently available on iTunes for pre-order. As for what’s next for John Seda and Rising Sun; music by Mykola Leontovych, a festive Christmas instrumental [“Carol of the Bells”](#) produced and arranged by [John Seda](#) with Seda on the guitar, keyboard, bass, cowbell, shaker, and drum programming. This holiday track also features Luis Alicea on the drums quija de burro, congas, shekere, and his accompaniment on the cowbell.
