

Introducing Moonland: Film Production House and Location Scouting Company

Sweden, Stockholm, Nov 2, 2021 ([Issuewire.com](https://www.issuewire.com)) - Introduction

Moonland is a full-service production house and a location scouting company with head office in Oslo, Norway, and Stockholm, Sweden. We have a wide network of professionals who are experts in their respective fields and are ready to provide excellent guidance and support to you and assist in getting a perfect shot.

Services Offered

We aspire to provide one-stop services for our clients so that they don't have to struggle to find the right person to help them. Here is the list of services we offer:

- **Film production**

There are different activities included in the [film production company](#); some are major activities such as photography, camera angles, and some are minor activities that directly or indirectly affect the quality of the film. Below is the detailed list of services provided by us:

- **Network of Professionals**

Depending on your goals, you may need a full production service or a few professionals for specific roles. Our wide network of professionals helps you find the right professional who is ready to manage your shoot. Also, if someone drops out in the middle of the shoot, we have other professionals who can quickly take over the empty position.

- **Crew**

In our full production service, we have experienced crew members who are excellent at

what they do. Our crew helped us reach distant places, get the best angle and choose the best location. As shooting and filming are our primary tasks, we ensure our crew members are always equipped with new equipment and have the knowledge to use them.

- **Photography and videography**

Our photographers and videographers are highly passionate people who love and understand nature. They go the extra mile to get that perfect shot. As we all know, photography and videography is a creative task, and there are many things to keep in mind, such as time, lights, angle, focus, aperture, depth, and many more which ensures you don't miss out on a great shot.

- **Graphics designing**

Designing is one of our core tasks in which we have highly skilled professionals who create eye-catching and appealing graphics to add life to the image or videos. Our professionals carefully understand your project goals and provide constructive feedback to get the best results. We use professional tools such as Adobe, frame.io, Panavision, and Studio Binder.

- **Set and prop designing**

A great shoot requires various elements to give a correct feel to the scene. Props are widely used to give emphasis on a feeling or add emotions in a shoot. For example, clock, food, tumbleweed, and stairs. Our directors and producers help you understand the impact of various props and help you choose the correct prop, and prepare a set for you to shoot.

- **Location scouting**

Our location scouts are spread across the world and have a huge library of filming locations. They continuously visit different areas and keep adding places to their stock of locations. So you just have to explain the idea of shoot you have in your mind, and according to that, they will provide you with a couple of locations from which you can choose a handful and plan a site visit.

Locations

We provide our services in different regions worldwide. Here are the locations that we serve and the best attractions of these places.

Nordic region

- **Norway**

It is crowned as the best place to watch the northern lights in the world. It has huge mountains, coastal areas, glaciers, and massive fjords.

- **Sweden**

Sweden has a vast area covered in mountains and forests. Therefore, many people, photographers, and film houses are attracted to thousands of islands, inland lakes, and icy glaciers of Sweden.

- **Denmark**

Denmark is a beautiful grassland country that consists of gently rolling hills and colorful cities. With such vast grassland and beautiful cities, it is also known as 'Cold Hawaii'.

- **The Faroe Islands**

The Faroe Islands is a beautiful group of islands in the North Sea, famous for its breathtaking sceneries and active volcanoes. It is a group of islands isolated from the world, making it interesting and mysterious for every production house. We are one of the best photo production service providers in the Faroe Islands.

- **Greenland**

It is the largest island globally, with a massive ice sheet ranking next to Antarctica's ice sheet. This cold country is famous for its unique culture and massive ice fjords.

- **Iceland**

Iceland is located between Greenland and Norway. It is a beautiful island with amazing geological contrast and is known as the land of ice and fire due to the presence of volcanoes and glaciers. Many businesses have worked with us in the past. We provide all [film production services](#) in Iceland.

International region

Other than the Nordic region, we serve California, Mexico, Tokyo, Shanghai, Dolomites, Catalonia, and South Africa.

Conclusion

These are the services we provide and the locations we serve. We also help in hiring the cast for the shoot. To get a customized shoot schedule for yourself, contact us at +46 (0) 737 633 550 or mail us at contact@moonland.se.
