

iTester Inc Achieves ISO 27001

The Most Widely-recognized Information Security Certification has Been Awarded to iTester Inc for its Cyber Security Testing Services

Plano, Texas Nov 15, 2021 ([Issuewire.com](https://www.issuewire.com)) - iTester Inc ("iTester" or the "Company") the leading provider of software testing and cyber security and secure software testing solutions announced today that as of November 14, 2021, it achieved the International Organization for Standardization (ISO) 27001 certification for its software and IT operations for customers.

"As a provider of software testing and cyber security testing that are delivered as service (TaaS), this certification is an important demonstration of our commitment to the highest standards of internal security," said Raj Varma, Chairman, and CEO of iTester. "Not only does the ISO certification recognize our high-security testing standards, but it lets our customers, partners and prospects know that we take the protection of their data extremely seriously."

ISO is the world's largest developer and creator of standards that specify worldwide requirements for products, services, processes, materials, and systems. ISO 27001 is the international standard developed specifically for Information Security Management Systems ("ISMS"), requiring that a company uses a systematic approach to managing sensitive information and ensuring data security.

iTester's recent ISO 27001 certification by ARS Ltd recognizes the Company's implementation of an effective information security system that complies with one of the most stringent international standards.

ISO 27001 comprises 10 detailed control categories including information security policy, security organization, asset classification controls, personnel security, physical security, communication management, access controls, system deployment, continuity planning, and compliance. For further information on ISO 27001, please visit www.iso.org.

About iTester Inc

At iTester, we differentiate ourselves from our competitors by our proven, reliable delivery of innovative and creative solutions to meet each client's individual, organizational and technological needs.
